

# Summer Before First Grade ACTIVITY CALENDARS

Dear Parents,

I am sending home two summer activity calendars with your child. There are many great activities that you can work on with your child throughout the summer. Each day there is a task that focuses on something students will be learning in first grade. Your child does not need to complete all of these activities, or even understand all the concepts, but it is a good way to at least introduce them to what they will be learning about next year. My suggestion is to pick the ones your child is interested in and work on them together.

I hope you enjoy your summer!

**Building Blocks** Gene I. Maeroff, 2015-01-27 A student's entire journey along the educational spectrum is affected by what occurs and crucially by what does not occur before the age of eight or nine. Yet early learning has never received the attention it deserves and needs. In his latest book, education expert Gene Maeroff takes a hard look at early learning and the primary grades of schooling. *Building Blocks* offers a concrete and groundbreaking strategy for improving early education. Filled with colorful descriptions and anecdotes from Maeroff's visits to schools around the country, *Building Blocks* creates a rich portrait of education in America, ranging from math lessons imported from Singapore in Massachusetts to serious but joyful kindergartens in California. He speaks of the need for schools to prepare for the burgeoning enrollment of youngsters from immigrant families and for all children to acquire the habits and dispositions that will make them committed and productive students. Maeroff issues a call to action for policy makers and parents alike.
