Pellman, 2022-05-24 This comprehensive overview of karate connects the dots between its philosophical and spiritual foundations with its original purpose to kill an attacker swiftly and brutally Prior to 1900 karate d was exclusively an art of unarmed self defense Its practice was designed for life or death situations effectively an art of killing Here authors Leonard Pellman and the late Masayuki Shimabukuro restore karate to its original intent They move karate away from its popular modern day sporting applications back to its deadly origins and to the restraining philosophy of peace self sacrifice compassion and service to others that necessarily accompanied it Readers will learn The purpose and meaning of karate d The origins and major precepts of bushid Training methods preparation and etiquette Fundamentals spiritual power training patterns and analysis and application of kata How to understand the body as a weapon With chapters on kokoro heart mind and spirit ki spirit and energy and the 7 major precepts of bushid The Art of Killing demonstrates how karate is more than a method of bringing an enemy down it s a philosophical and spiritual system grounded in essential lessons to guard against abuses of power Together the authors showcase how purity of intention matters and how compassion and respect are the essence of karate training      *Judo Kata* Llyr Jones Ph D, Biron Ebell M a, Lance Gatling M. a., 2016-09-14 The practice of judo katas has changed over time as a result of perceived purpose The chapters in this anthology were written by seven authorities in judo history and practice Their writings clarify the purpose of kata and thus its mode of practice and their place in competition In 1926 a contest occurred in which thirty seven of the finest judoka in Japan competed before the Emperor Hirohito The first chapter by Robert W Smith details the techniques utilized by each

master and also compares their skills with today's judo practitioners. The next two chapters by Dr Llyr Jones and Biron Ebell deal with the transmutation of judo over the decades. Both authors give ample support that the original guidelines have evolved into competitive sport resulting in a substantial decline in the number of adults practicing judo. Where does kata stand in judo practice today? Dr Lance Gatling reports on The First Kodokan Judo International Competition 2007. He outlines the background of the competition, the competitors, the motivations for this competition, the historical development of judo katas and their importance to the correct study of judo. Dr Llyr Jones' next chapter has two objectives: to explain the purpose of kata in judo and to critically evaluate the concept of kata championships. To achieve these objectives, Jones offers personal comments, observations from rare Japanese source material, as well as insight into the thinking of world-renowned judo experts. Linda Yiannakis provides two insightful chapters. Her first chapter presents a conceptual framework for examining principles of judo throwing techniques. The principles are classified as primarily structural, operational, or contextual in nature. In her second chapter, she points out that martial artists are acutely aware of the need to develop a sense of timing for the best possible moment to apply techniques in free play or contest. This chapter examines some critical features of patterns and rhythms in a variety of contexts and provides a few basic exercises for the development of awareness and use of rhythm patterns and timing in judo. Jones, Savage, and Gatling present an in-depth study into Kodokan Goshin jutsu, a Kodokan judo exercise formally established in 1956 to teach the principles and techniques of self-defense against unarmed and armed attacks and to meet modern lifestyle needs. Their chapter reviews the place of Goshin jutsu among the Kodokan katas and then summarizes the history, its creation. A description of the exercise's structure and technical contents follows, along with an in-depth explanation of its principles and associated teaching and learning challenges. This also includes a review of the most reliable learning texts in Japanese, English, and selected other Western languages. Kodokan Goshin jutsu's performance aspects are considered next. An objective assessment of its practical self-defense effectiveness follows, before finally conclusions are drawn. The short final chapter by Dr Jones is on Kodokan judo's Nage no kata forms of throwing and Katame no kata forms of control. Their study helps facilitate the development of free practice randori skills. Many look at judo studies as including three dimensions: free practice, competition, and forms. Kata practice is vital to the other two. If you are involved with judo, this anthology will deepen your purpose and inspire your practice.

**A Journey in Search of Wholeness and Meaning** Rupert Clive Collister, 2010. This book explores the concept that the reality which is created by the consciousness inherent in the Western worldview is exceptionally limiting and probably unsustainable. After describing the contexts within which the book was written, the author documents his personal journey in search of wholeness and meaning. From his experience of this journey, he suggests that the wisdom, insight, and praxis contained within what he describes as the meta-narratives of Holism, Indigenous cultures, and Eastern traditions are manifestations of a holistic consciousness. The author explores the concept that a shift to such a holistic consciousness is required in order to redress the imbalance that is evident

in all humanity's relationships and he suggests that enabling such a shift in consciousness would have deep implications for the concepts and contexts of community adult learning meaningful work and sustainability      **Forthcoming Books** Rose Army,1994-02      Practice Drills for Japanese Swordsmanship Nicklaus Suino,2008-02-05 To become an expert swordsman one must pay close attention to detail be highly self critical and practice diligently every day under the guidance of a good teacher Unfortunately contact time with a worthy mentor is limited for most Practice Drills for Japanese Swordsmanship fills this obvious gap in the training of the modern swordsman by providing bokuto wooden sword drills to supplement the formal class activity of forms practice Both single and two person drills are presented some common to iaido and kenjutsu others extracted from iaido forms by the author and used to teach his own students the proper ways of drawing parrying and cutting Each drill is illustrated with step by step drawings to help students hone their techniques together they provide a comprehensive system of general skills development for anyone interested in using the Japanese sword
