for legitimacy But narratives are rarely the truth and never the whole truth When they are used to oppress people as in hate speech the fundamentals of a pluralistic and democratic society are undermined and the lives and dignity of people are at risk Counter narratives are thus needed to discredit and deconstruct the narratives on which hate speech is based Alternative narratives are also needed to reinforce positive values and perspectives which support human rights and democratic citizenship such as solidarity respect for diversity freedom and equality Young people need to occupy online public space with positive narratives based on hope and love This manual presents communicative and educational approaches and tools for youth and other human rights activists to develop their own counter and alternative narratives to hate speech It is designed for working with young people from the age of 13 and is based on the principles of human rights education and youth participation Anyone can take action against speech By providing insights into hate speech and human rights and a methodology for producing counter narratives We Can makes that action easier more effective and positive The Council of Europe launched the No Hate Speech Movement campaign to mobilise young people for human rights online and to combat hate speech Education plays a central role in the campaign This manual complements Bookmarks A manual for combating hate speech online through human rights education also published by the Council of Europe **Alternatives**

Convergences in Music & Art George C. Schuetze,2005 The interest that individual artists and composers have taken in each others skills and creations over the centuries has grown from a negligible amount of interest in the nineteenth century to a vast amount by the end of the twentieth century This volume explores the history of this phenomenon of mutual influence beginning in Chapter 1 with how music has inspired artists and continuing in Chapter 2 with how composers in turn have been inspired by the visual arts

Chapter 3 chronicles the so called Doppelbegabungen or twin talents artists who also have been active as musicians and composers who have extended their creative talents to the visual arts Chapter 4 discusses portraits of musicians and composers over the centuries Publisher's website **The Oxford Handbook of Sound and Image in Digital Media** Carol Vernallis, Amy Herzog, John Richardson, 2015 This collection surveys the contemporary landscape of audiovisual media Contributors from image and sound studies explore the history and the future of moving image media across a range of formats including blockbuster films video games music videos social media experimental film documentaries video art pornography theater and electronic music The Complete Lynch David Hughes, 2014-04-30 After working with David on his previous work for the series The Complete Kubrick we knew we were on to a winner for this book Not only is David Lynch a master of modern film making but David Hughes is well qualified to write this complete book The book covers all Lynch's films including Mulholland Drive TV and other projects as well as the unrealised ventures such as Revenge of the Jedi later directed by Richard Marquand as Return of the Jedi It also includes a foreword by Barry Gifford the novelist behind Wild at Heart and co writer with Lynch of the screenplay for Lost Highway and excerpts from a new interview David Hughes carried out with David Lynch himself The Complete Lynch is the only comprehensive study of this great director *The Rhetoric of Cool* Jeff Rice, 2007-05-11 The Rhetoric of Cool Composition Studies and New Media offers a historical critique of composition studies rebirth narrative using that critique to propose a new rhetoric for new media work Author Jeff Rice returns to critical moments during the rebirth of composition studies when the discipline chose not to emphasize technology cultural studies and visual writing which are now fundamental to composition studies Rice redefines these moments in order to invent a new electronic practice The Rhetoric of Cool addresses the disciplinary claim that composition studies underwent a rebirth in 1963 At that time three writers reviewed technology cultural studies and visual writing outside composition studies and independently used the word cool to describe each position Starting from these three positions Rice focuses on chora appropriation commutation juxtaposition nonlinearity and imagery rhetorical gestures conducive to new media work to construct the rhetoric of cool An innovative work that approaches computers and writing issues from historical critical theoretical and practical perspectives The Rhetoric of Cool challenges current understandings of writing and new media and proposes a rhetorical rather than an instrumental response for teaching writing in new media contexts *The Body and Desire* Raphael A. Cadenhead, 2018-11-27 Although the reception of the Eastern Father Gregory of Nyssa has varied over the centuries the past few decades have witnessed a profound awakening of interest in his thought The Body and Desire sets out to retrieve the full range of Gregory's thinking on the challenges of the ascetic life by examining within the context of his theological commitments his evolving attitudes on what we now call gender sex and sexuality Exploring Gregory's understanding of the importance of bodily and spiritual maturation for the practices of contemplation and virtue Raphael A Cadenhead recovers the vital relevance of this vision of transformation for contemporary ethical discourse James (New
