Sacred Retreat Pia Orleane, 2017-09-12 Restoring our biological cycles to heal ourselves our culture and our planet 2017 Nautilus Gold Award Shows how just like the tides and the moon phases both women and men have biological cycles of growth and renewal necessary for healthy bodies and minds Explains how the seclusion of women during menstruation and of men during vision quests offers a cleansing process for body and mind to awaken innate creativity and sensitivity re attune us with the deeper rhythms of the body and nature and restore harmony between the divine feminine and divine masculine Reveals how the need for sacred retreat was forgotten when the divine feminine was suppressed by patriarchal culture All of life is interwoven into a living system of cycles from Earth's seasons to the enzymatic pathways that provide energy to a cell

Waxing and waning from times of growth to times of rest renewal and healing cycles map the most auspicious time for everything in life Both women and men have biological cycles of active growth and quiet renewal led by our hormones By understanding how everything in life moves in cycles you can become more aware of and comfortable with your own cyclic nature something that has been forgotten by the modern world s linear views of time Drawing on the wisdom of ancient cultures the natural cycles of life and her own groundbreaking research Pia Orleane Ph D offers a template for how we can restore balance to our emotions and health ease tensions between the sexes and heal our fractured culture by honoring divine feminine consciousness and re embracing natural cycles including our innate need for rest and retreat She explains the biology of how our bodies operate by hormones released in cycles and shows how balanced hormones help eliminate anger depression insomnia anxiety and fatigue Exploring ancient traditions and rituals surrounding blood and sacred retreat she explains how the seclusion of women during menstruation and of men during vision quests offered a cleansing process for body and mind alone time to clear suppressed emotions awaken our innate creativity and sensitivity re attune us with the deeper rhythms of the body and nature and restore harmony between the genders and balance between the divine feminine and masculine Outlining the sacred retreat process the author explores dream cycles divine sexuality and practices for reconnecting to nature increasing creativity and intuition and clearing suppressed emotions She also looks at the benefits for women and men of separate sleeping during menstruation Through this wisdom we can restore our natural cycles allow the divine feminine to once again blossom alongside the divine masculine and with the return of balance heal our world and our hearts

Rebecca Smith Orleane, Ph.D., Cullen Baird Smith, 2010 The authors transcribe their communications via radio waves with the Laarkmaa a group of Pleiadians who bring messages of hope love and peace to humanity

The Return of the Feminine Rebecca Orleane, 2010-06 Women are Lifegivers who understand the feminine because cycles of life and death run in our blood All things in Nature move in cycles yet women s cycles have been ignored dismissed or pathologized affecting our place in society and preventing us from truly being who we are Premenstrual Syndrome a culturally induced condition resulting from a suppression of women s emotional vision has led us to stop listening to the wisdom of our own cycles and caused us to approach Menopause in a welter of confusion This book explores the cycles that define our lives offers ways to heal our relationships and beckons us to return to Nature It is time to awaken to the value and power inherent in another way of seeing the world through the eyes of feminine vision It is time to return to the feminine and heal our relationships through living in harmony with Nature This rich timely work clearly rises from the depths of a woman s soul It is indeed an invitation into Life s Mystery This work is a must for all those who seek the healing of the human condition

and form of reality as deeply entrenched and entrapped as you believe yourselves to be What sort of paradox is this And who indeed are we claiming kin to you and yours And why do we desire to journey with you Well these things you must decide for yourselves We relate great tales and relish a resplendently irreverent good humor all intended to figure things out in all due respect as best we can We strive to make sense of existence gathering multidimensional pieces of a puzzle into a form and shape that encompass untold and unrecognized societies How can pieces of a puzzle be multidimensional and what is multidimensional anyway We can hear your questions now and we guarantee that you will have many more before the journey is complete So we ask may we join you and enter your reality by invitation For it is through your beckoning and with your permission that we spring forth as a part of your life Feel into the depths of your being before you respond Seek inside for an answer for to invite us into your reality as friends and companions will with certainty confound and change your lives and perhaps some of you are quite content with where you are Perhaps you are not really interested in multi dimensional realities and perceive these ideas as vague notions and tidbits of unfounded fiction fracturing and fragmenting a logic you paid so dearly to achieve If that is the case then you may do well to stop short now and put our tale aside Perhaps in another time and place we will meet again If however we have piqued your curiosity and you feel compelled to continue so be it It is best to start with the truth As a matter of fact if there is such a thing it is best to end with the truth as well And how about the middle and all along the way you may ask Well the truth is essential throughout the journey however the ongoing paradox invariably involves your point of view Remember that Now we are travelers through time which is the best way to describe us We call ourselves Pleiadians though we answer to many names and characters We are as real as you believe yourselves to be When we encounter you we meet ourselves located on a slice of time poised as you believe in a solid physical 3 D world You fascinate us and perhaps by the end of our travels and tales you will be fascinated with yourselves as well For now the task of telling is at hand and so the tale begins
