An Encyclopaedia of World Bridges David McFetrich, 2022-06-02 Bridges are one of the most

important artefacts constructed by man the structures having had an incalculable effect on the development of trade and civilisation throughout the world Their construction has led to continuing advances in civil engineering technology leading to bigger spans and the use of new materials Their failures too whether from an inadequate understanding of engineering principles or as a result of natural catastrophes or warfare have often caused immense hardship as a result of lost lives or broken communications In this book a sister publication to his earlier *An Encyclopaedia of British Bridges* Pen Sword 2019 David McFetrich gives brief descriptions of some 1200 bridges from more than 170 countries around the world They represent a wide range of different types of structure such as beam cantilever stayed and suspension bridges Although some of the pictures are of extremely well known structures many are not so widely recognisable and a separate section of the book includes more than seventy lists of bridges with distinctly unusual characteristics in their design usage and history

Oregon Coast Highway Laura E. Wilt, 2019-05-20 By the time the final links in the Oregon Coast Highway were made in 1936 the highway stretched 394 miles from Astoria to the border of California It had taken 12 years to complete the construction over stretches of rugged headlands and thick forests Early travel along the coast was difficult what roads existed were generally unimproved and often completely impassable during the rainy winter months In many cases the beaches themselves served as the only means of transporting freight and passengers When Maj Henry Bowlby the first Oregon State Highway engineer outlined a proposed system of state highways in 1914 he presented the vision of a coastal highway to the Oregon State Highway Commission The eventual construction of this highway opened access to the Willamette Valley and beyond for many formerly isolated coastal communities It also signaled an economic shift that included the promotion of tourism and the accommodation of the flood of visitors anxious to take advantage of the spectacular vistas along the Oregon coast

Hawai'i's Scenic Roads Dawn E. Duensing, 2015-03-31 *Hawai'i's Scenic Roads* examines a century of overland transportation from the Kingdom's first constitutional government until World War II discovering how roads in the world's most isolated archipelago rivaled those on the U S mainland Building Hawai'i's roads was no easy feat as engineers confronted a unique combination of circumstances extreme isolation mountainous topography torrential rains deserts volcanic eruptions earthquakes and on Haleakal freezing temperatures By investigating the politics and social processes that facilitated road projects this study explains that foreign settlers wanted roads to civilize the Hawaiians and promote western economic development specifically agriculture Once sugar became the dominant driver in the economy civic and political leaders turned their attention to constructing scenic roads Viewed as commercial enterprises scenic byways became an essential factor in establishing tourism as Hawai'i's third crop after sugar and pineapple These thoroughfares also served as playgrounds for the islands elite residents and wealthy visitors who could afford the luxury of carriage driving and after 1900 motorcars Duensing's provocative analysis of the 1924 Hawai'i Bill of Rights reveals that roads played a critical role in redefining the Territory of Hawai'i's status within the United States Politicians and civic

leaders focused on highway funding to argue that Hawai i was an integral part of the Union thus entitled to be treated as if it were a state By accepting this Bill of Rights Congress confirmed the territory s claim to access federal programs especially highway aid Washington s subsequent involvement in Hawaii increased as did the islands dependence on the national government Federal money helped the territory weather the Great Depression as it became enmeshed in New Deal programs and philosophy Although primarily an economic protest the Hawai i Bill of Rights was a crucial stepping stone on the path to eventual statehood in 1959 The core of this book is the intriguing tales of road projects that established the islands most renowned scenic drives including the Pali Highway byways around K lauea Volcano Haleakal Highway and the H na Belt Road The author s unique approach provides a fascinating perspective for understanding Hawai i s social dynamics as well as its political environmental and economic history **Oregon Historical Quarterly** ,2019 The Road Taken Henry Petroski,2017-02-21 A renowned historian and engineer explores the past present and future of America s crumbling infrastructure Acclaimed engineer and historian Henry Petroski explores our core infrastructure from both historical and contemporary perspectives explaining how essential their maintenance is to America s economic health Petroski reveals the genesis of the many parts of America s highway system our interstate numbering system the centerline that divides roads and such taken for granted objects as guardrails stop signs and traffic lights all crucial to our national and local infrastructure A compelling work of history The Road Taken is also an urgent clarion call aimed at American citizens politicians and anyone with a vested interest in our economic well being Physical infrastructure in the United States is crumbling and Petroski reveals the complex and challenging interplay between government and industry inherent in major infrastructure improvement The road we take in the next decade toward rebuilding our aging infrastructure will in large part determine our future national prosperity **Pacific Northwest Quarterly** ,2001 **Catastrophe to Triumph** Richard S. Hobbs,2006 In 1940 just months after opening Galloping Gertie captured worldwide attention when it plunged to a watery grave Richard Hobbs recounts the catastrophe and its aftermath including the harrowing escapes the subsequent investigation the scandals and the triumph of the replacement spans **Spanning Washington** Craig E. Holstine,Richard Hobbs,2005 Designed first and foremost to be practical bridges nevertheless are often breathtaking in their construction combining function and aesthetics The historic structures that span the Evergreen State s highways are no exception These technological wonders are extraordinary by any measure yet their stories have remained largely unknown Conceived by visionary engineers and built by anonymous workmen Washington s highway bridges are amazing triumphs of skill and played a significant role in the state s history Several at the time of their completion attracted worldwide attention and the praise of professional engineers influencing the course of bridge construction In their quest to compile the first comprehensive history of the state s highway bridges the authors poured through the extensive records at the Washington State Department of Transportation WSDOT collecting definitive documentation and photographs from across the state This

magnificent book including more than 100 illustrations represents the culmination of years of study by many individuals associated with WSDOT and the Office of Archaeology and Historic Preservation Olympia US Route 30, Lincoln Highway Corridor Management Plan, Iowa ,2005 The Lincoln Highway has been enjoying renewed interest through the heritage tourism movement while also facing the threat of significant changes made necessary through improvements needed on US 30 and other portions of the Lincoln Highway no longer on US 30 The dilemma between highway improvement and resource protection has at times resulted in conflict and adversity between competing interests on past projects The intent of this study is to find a way to minimize the conflict through the development of a corridor management plan The plan is 1 to direct the thoughtful placement of new roadway alignments and the sensitive design of new engineering and landscape developments and 2 to protect and enhance existing natural cultural historic and visual resources within the US Route 30 Lincoln Highway Corridor While these can be competing interests the intent is to achieve a balance that is acceptable to the stakeholders who have an interest in this highway corridor *Society for Industrial Archeology Newsletter* ,2001
