Workbook | Kids Ages 7-11 | Multiplication Activity Book | 100 Times Maths Test Drills | Grade 2, 3, 4, 5, and 6 | Year 2, 3, 4, 5, 6| KS2 | Large Print | Paperback Rr Publishing,2022-09-09 **Mathematics Workbooks Grade 1**

Corentin Guillien,2020-07 This exercise book contains 32 pages which resume what you child must know for the second grade Six theme are covered Recognize and name a number Locate a number Sum Addition subtraction fill the holes and multiplication This notebook is perfect for making a prick of reminder to your child during the holidays or for allowing him to deepen his knowledge indeed the exercises of the beginning are easy and become more and more difficult as the pages go by

Times Tables Home Schooling Maths Workbook Olivia Acker,2021-01-07 Never in trouble at school again That would be simply brilliant wouldn't it Times Tables practice pages Multiplication and Division up to 100 Daily tasks for the holidays More than 125 pages For only 4 99 All parents know the same dilemma On the one hand a child should always be allowed to

be a child Children should paint do handicrafts play hide and seek and run around the garden Children should be happy and explore the world through play On the other hand parents also have a duty At the age of 6 most children start primary school and have their first experiences with new learning content such as writing and arithmetic Parents have to find the right balance between playing climbing hiding painting roughhousing and learning But how much should a child learn at home besides school This is a question that can never be answered in a general way Parents should observe their children closely How does the child behave during homework Do the tasks come easily or does your child have difficulties with some tasks What was the last feedback from the class teacher at the parent teacher conference How good were the last learning objective tests These are all questions that parents can use to find out how well their child is currently doing and which tasks they may need to catch up on What makes children happy First and foremost parents want children to be happy and grow up carefree But how happy can a child be who has problems at school How happy can a child be that cannot answer questions in class Do the problems tend to increase or decrease in the course of the school years These are starting points for which parents are responsible Parents should always ask themselves whether they have supported their child enough or whether they could have done more for the school on some days How do the exercise books from Olivia Acker help Our exercise books for the holidays will help your children to achieve more success in primary school and as a result a happier child's life Especially during the holidays children should not completely give up learning Parents also have an additional opportunity to check how well the children are doing with the tasks set We especially want to promote children's self confidence and further development Therefore we focus on casual playful tasks that are perfectly adapted for the respective school year A few pages on Saturday and Sunday no more than half an hour per day and your child will make visible progress Who and when does this book support Children with problems in primary school Negative feedback at parent teacher conferences When there is a risk of transfer For generally better results For children who are unhappy due to poor results As setting the course for the future of school As a meaningful holiday activity As an additional learning objective What are the benefits of the book The right balance of play and learning Daily tasks for the holidays Tangible improvement in their children's academic results Happier and more confident children Positive next parent consultation You don't miss the chance to do something for your child No more negative comparisons with other children A very good feeling when your children make progress Our offer for still undecided parents 4.99 instead of the regular 8.99 Order risk free with 100% money back guarantee If you are not satisfied simply return the book

Times Tables (Book 1) Shenouda Makarie, 2015-03-14 This book 1 is a complete easy to follow structured and unique program with over 4 200 questions that will ensure your child learns their times tables off by heart for life This highly comprehensive program is set over 2 volumes covering the times tables 1 through to 12 along with divisions Each volume is designed to be completed within 12 weeks with short progressive daily exercises to quickly increase the knowledge of the times tables in a highly effective way To get the most out of this book ensure your child completes in
