First Person Narrative Examples:

The Narrator Sylvie Patron, 2023 The narrator the answer to the question who speaks in the text is a commonly used notion in teaching literature and in literary criticism even though it is the object of an ongoing debate in narrative theory Do all fictional narratives have a narrator or only some of them Can narratives thus be narratorless This question divides communicational theories based on the communication between real or fictional narrator and narratee and noncommunicational or poetic theories which aim to rehabilitate the function of the author as the creator of the fictional narrative Clarifying the notion of the narrator requires a historical and epistemological approach focused on the opposition between communicational theories of narrative in general and noncommunicational or poetic theories of the fictional narrative in particular The Narrator offers an original and critical synthesis of the problem of the narrator in the work of narratologists and other theoreticians of narrative communication from the French Czech German and American traditions and in representations of the noncommunicational theories of fictional narrative Sylvie Patron provides linguistic and pragmatic tools for interrogating the concept of the narrator based on the idea that fictional narrative has the power to signal by specific linguistic marks that the reader must construct a narrator when these marks are missing the reader is able to perceive other forms and other narrative effects specially sought after by certain authors

An Introduction to Narratology, *Exemplum* John D. Lyons, 2014-07-14 Examples crucial links between discourse and society's view of reality have until now been largely neglected in literary criticism In the first book length study of the rhetoric of example John Lyons situates this figure by comparing it with more frequently studied tropes such as metaphor and synecdoche discusses meanings of the terms example and exemplum and proposes a set of descriptive concepts for the study of example in early modern literature Tracing its paradoxical nature back to Aristotle's Rhetoric Lyons shows how exemplary rhetoric is caught between often competing aims of persuasive general statement and accurate representation In French and Italian texts of the sixteenth and seventeenth centuries this dual task was rendered still more challenging by a transition to new sources of examples as the age of discovery brought increased emphasis on observation The writers of this period were aware of a crisis in exemplary rhetoric a situation in which serious questions were raised about how authors and audience would find a common ground in interpreting representative instances Lyons's focus on the strategy of example

Strange Voices in Narrative Fiction Per Krogh Hansen, Stefan Iversen, Henrik Skov Nielsen, Rolf Reitan, 2011-10-27 From its beginnings narratology has incorporated a communicative model of literary narratives considering these as simulations of natural oral acts of communication This approach however has had some problems with accounting for the strangeness and anomalies of modern and postmodern narratives As many skeptics have shown not even classical realism conforms to the standard set by oral or natural storytelling Thus an urge to confront narratology with the difficult task of reconsidering a most basic premise in its theoretical and analytical endeavors has for some time been undeniable During the 2000s Nordic narratologists have been among the most active and insistent critics of the communicative model They share a marked skepticism towards the idea of using natural narratives as a model for understanding and interpreting all kinds of narratives and for all of them the distinction of fiction is of vital importance This anthology presents a collection of new articles that deal with strange narratives narratives of the strange or more generally with the strangeness of fiction and even with some strange aspects of narratology
