Work Hard, Be Hard Jim Horn, 2016-02-18. This book explores the ideological contexts for the creation and spread of No Excuses charter schools. In so doing, *Work Hard Be Hard* focuses closely on the Knowledge Is Power Program (KIPP) charter school chain as the most prominent exemplar for total compliance No Excuses schooling. By way of in depth interviews, former teachers offer accounts of their No Excuses teaching experiences that have not been heard before and that are not likely to be forgotten soon. *Work Hard Be Hard* also examines the KIPP organization as a manifestation of modern education reform exemplified in the convergence of neoliberal politics and the aggressive activities of the business and philanthropic communities. As an important corollary to the total compliance charter phenomenon, the book explores too the role of Teach for America in supplying the needed manpower and values components required to deal with very high levels of teacher attrition in these schools. *Work Hard Be Hard* goes beyond accounts offered in news features, articles, and interviews that focus on No Excuses charters' high test scores and expanded college opportunities for economically disadvantaged children. In short, the book offers a naturalistic antidote to the high profile gloss that mass media provides for No Excuses schooling. *Work Hard Be Hard* examines new developments in No Excuses schooling that focus on psychological interventions aimed to alter children's neurological and behavioral schemas in order to affect socio-cultural values and behaviors. Fraught with potential for abuse and misapplication by minimally trained teachers, these cult-like practices are examined and contrasted with more humane strategies that hope to reawaken the virtues of teaching and learning within the expansive confines of the sciences and arts of a truly humane pedagogy. This book will function as a common reader for parent groups or individuals interested in understanding the inner workings and impacts of no excuses charter schools. Serve as a text for education students for courses in pedagogy, social and cultural foundations of education, education policy, and politics of education. Provide deeper appreciation of social, political, and economic issues and incentives associated with total compliance charter schools. Help to ameliorate an absence of teacher perspectives on teaching in No Excuses charter schools. Assist the general

public in understanding the ideological and economic agendas that drive support of total compliance charter schools Help to educate policy makers and their staffs in cultural and economic facets of corporate education reform that are relevant to political decisions regarding education policy

Beginning Cataloging Jean Weihs, Sheila S. Intner, 2016-12-12 Now thoroughly updated to include recent changes with RDA this easy to use primer provides an introduction to standardized cataloging that will benefit library technicians as well as students in library technician and teacher librarian programs This easy to use primer provides a complete introduction to current standard cataloging practice The simple language helpful examples and clear descriptions of processes and techniques make it a valuable tool for any beginning cataloger or worker in a technical services department Updated with key information about RDA principles and practices and following the same pragmatic approach as the first edition the book empowers students with an understanding of the core principles and language of cataloging Readers will learn how to apply standard descriptive cataloging rules to assign subject headings and classification numbers and to create electronic records The book first examines the cataloging in publication data found on the verso of most books Then chapter by chapter it explains how this data can be developed into a full bibliographic record that can be used in an online public catalog covering all types of material formats books audiovisuals images sound electronic resources and more This guide will also serve as a workbook in formal education programs or distance education programs and be useful to library technicians and those working in areas where formal training is inaccessible

Text, Lies and Cataloging Jana Brubaker, 2018-07-09 What do James Frey's *A Million Little Pieces* Margaret B Jones *Love and Consequence* and Wanda Koolmatrie's *My Own Sweet Time* have in common None of these popular books are what they appear to be Frey's fraudulent drug addiction memoir was really a semi fictional novel Jones chronicle of her life in a street gang was a complete fabrication and Koolmatrie was not an Aboriginal woman removed from her family as a child as in her seemingly autobiographical account but rather a white taxi driver named Leon Carmen Deceptive literary works mislead readers and present librarians with a dilemma Whether making recommendations to patrons or creating catalog records objectivity and accuracy are crucial and can be difficult when a book's authorship or veracity is in doubt This informative and entertaining study addresses ethical considerations for deceptive works and proposes cataloging solutions that are provocative and designed to spark debate An extensive annotated bibliography describes books that are not what they seem
