APOS Theory Ilana Arnon, Jim Cottrill, Ed Dubinsky, Asuman Oktaç, Solange Roa Fuentes, Maria Trigueros, Kirk Weller, 2013-08-04 In spite of the fact that APOS Theory has been used extensively in numerous scholarly publications in the design of textbooks and in teaching practice there is no single references that contains all the relevant information about its components and provides guidance about its application The goal of this book is to present the main elements of APOS theory It should be useful for researchers who work with or would like to learn more about this theoretical approach people who are interested in the way which mathematical conceptions are constructed according to this theory Mathematics Education researchers graduate students in Mathematics Education and Mathematics instructors **Fascinating Mathematical**

People Donald J. Albers, Gerald L. Alexanderson, 2011-09-06 Top mathematicians talk about their work and lives Fascinating Mathematical People is a collection of informal interviews and memoirs of sixteen prominent members of the mathematical community of the twentieth century many still active The candid portraits collected here demonstrate that while these men and women vary widely in terms of their backgrounds life stories and worldviews they all share a deep and abiding sense of wonder about mathematics Featured here in their own words are major research mathematicians whose cutting edge discoveries have advanced the frontiers of the field such as Lars Ahlfors Mary Cartwright Dusa McDuff and Atle Selberg Others are leading mathematicians who have also been highly influential as teachers and mentors like Tom Apostol and Jean Taylor Fern Hunt describes what it was like to be among the first black women to earn a PhD in mathematics Harold Bacon made trips to Alcatraz to help a prisoner learn calculus Thomas Banchoff who first became interested in the fourth dimension while reading a Captain Marvel comic relates his fascinating friendship with Salvador Dal and their shared passion for art mathematics and the profound connection between the two Other mathematical people found here are Leon Bankoff who was also a Beverly Hills dentist Arthur Benjamin a part time professional magician and Joseph Gallian a legendary mentor of future mathematicians but also a world renowned expert on the Beatles This beautifully illustrated collection includes many photographs never before published concise introductions by the editors to each person and a foreword by Philip J Davis
