Fundamentals of Momentum, Heat and Mass Transfer James P. Welty, 2019-03-18 Differential Equations with Maple Jon H. Davis, 2000-12-21 Differential equations is a subject of wide applicability and knowledge of differential equations is a subject of wide applicability and knowledge of differential equations equations topics permeates all areas of study in engineering engineering and applied mathematics Some differential equations are susceptible to analytic means of solution while others require the generation of numerical solution trajectories to see the behavior of the system under study For both situations the software package Maple can be used to advantage To the student Making effective use of differential equations requires facility in recognizing and solving standard tractable problems as well as having the background in the subject to make use of tools for dealing with situations that are not amenable to simple analytic approaches

Differential Equations Bruce P.

Conrad,2003 Written for beginners this well organized introduction promotes a solid understanding of differential equations that is flexible enough to meet the needs of many different disciplines With less emphasis on formal calculation than found in other books all the basic methods are covered first order equations separation exact form and linear equations as well as higher order cases linear equation with constant and variable coefficients Laplace transform methods and boundary value problems The book ssystems focus induces an intuitive understanding of the concept of a solution of an initial value problem in order to resolve potential confusion about what is being approximated when a numerical method is used The author outlines first order equations including linear and nonlinear equations and systems of differential equations as well as linear differential equations including the Laplace transform and variable coefficients nonlinear differential equations and boundary problems and PDEs For those looking for a solid introduction to differential equations
