Orient-express Magazine ,1998 **Science-Fiction Rebels: The Story of the Science-Fiction Magazines from 1981 to 1990** Mike Ashley,2016-01-28 Fourth volume in Mike Ashley s acclaimed set on the history of science fiction magazines This volume looks at the 1980s *Biofictions* Lejla Kucukalic,2021-09-22 *Biofictions* introduces three novel concepts biofiction bioimagination and biodiscourse to talk about intersections of literary and visual texts and biotechnology The book proposes a new interdisciplinary area of research that correlates processes of genetics and literature based on two critical approaches One drawing parallels between the genetic codes human language formal binary language and posthuman communication and the role of meaning and imagination in these forms of communication Two by defining biofictions as a critical scientific artistic concept and as a corpus of texts that engage ideas and developments in molecular biology Syncretic connection between biotechnology and literature is especially evident in an open science movement and the literary artistic genre of biopunk discussed across chapters The study includes well known contemporary texts such as David Foster Wallace s *Infinite Jest* that are recontextualized as biofiction it offers a rereading of important but neglected novels such as Thomas Disch s *Camp Concentration* 1967 and it analyzes new visual texts such as the TV series *Altered Carbon* and *Ghost in the Shell* films Based on these wide ranging examples and new critical concepts the book argues that coming up with possible alterations for the genetic code or intended traits for the organism is a discursive practice that brings into being bionarratives that are both organic and literary Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license **Science Fiction Rebels** Michael Ashley,2016 Fourth volume in Mike Ashley s acclaimed set on the history of science fiction magazines This
