The Holy Roman Empire: A Very Short Introduction Joachim Whaley, 2018-07-19 Voltaire s description of the Holy Roman Empire as neither holy nor Roman nor an empire is often cited to underline its worthlessness German historians traditionally despised it because it had allegedly impeded German unification Since 1945 scholars have been more positive but the empire s history and significance is still largely misunderstood In this Very Short Introduction Joachim Whaley outlines the fascinating thousand year history of the Holy Roman Empire Founded in 800 on the basis of Charlemagne s Frankish kingdom its imperial title went to the German monarchy which became established in the ninth and ten centuries They claimed Charlemagne s legacy including his role as protector of the papacy and guardian of the Church Around 1500 the title Holy Roman Empire of the German Nation was adopted An elective monarchy the empire gradually developed from a feudal monarchy into a legal system that pacified the territories and cities of German speaking Europe By 1519 it had a supreme court and a regional enforcement system ended feuding Throughout its lifetime the empire s growth and history was shaped by the major developments in Europe from the Reformation to the Thirty Years War to the French revolutionary wars which led to Napoleon destroying the empire in 1806 The sense of a common history over a thousand years and the legal traditions established by the empire have shaped the history of German speaking Europe ever since

Joachim Whaley analyses the empire's crucial impact and role in the history of European power and politics and shows that there has never been a more durable political system in German history

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Socrates: A Very Short Introduction W. C. W. Taylor, 2019-08-22 Socrates has a unique position in the history of philosophy; it is no exaggeration to say that had it not been for his influence on Plato, the whole development of Western philosophy might have been unimaginably different. Yet Socrates wrote nothing himself, and our knowledge of him is derived primarily from the engaging and infuriating figure who appears in Plato's dialogues. In this Very Short Introduction, Christopher Taylor explores the life of Socrates and his philosophical activity before looking to the responses his philosophical doctrines have evoked in the centuries since his betrayal and execution at fellow Athenian hands. Examining the relationship between the historical Socrates and the Platonic character, Taylor considers the complex question of how far it is possible to distinguish the philosopher's own thought from that of those others who wrote about him, and explores the enduring image of Socrates as the ideal exemplar of the philosophic life: a thinker whose moral and intellectual integrity permeated every detail of his life. This new edition also includes a new chapter analysing the reception and influence of Socrates in 19th and 20th-century philosophical thought.

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Utilitarianism: A Very Short Introduction Katarzyna de Lazari-Radek, Peter Singer, 2017-07-20 Utilitarianism may well be the most influential secular ethical theory in the world today. It is also one of the most controversial. It clashes or is widely thought to clash with many conventional moral views and with human rights when they are seen as inviolable. Would it, for example, be right to torture a suspected terrorist in order to prevent an attack that could kill and injure a large number of innocent people? In this Very Short Introduction, Peter Singer and Katarzyna de Lazari-Radek provide an authoritative account of the nature of utilitarianism from its nineteenth-century origins to its justification and its varieties. Considering how utilitarians can respond to objections that are often regarded as devastating, they explore the utilitarian answer to the question of whether torture can ever be justified. They also discuss what it is that utilitarians should seek to maximize, paying special attention to the classical utilitarian view that only pleasure or happiness is of intrinsic value. Singer and de Lazari-Radek conclude by analysing the continuing importance of utilitarianism in the world, indicating how it is a force for new thinking on contemporary moral challenges like global poverty, the treatment of animals, climate change, reducing the risk of human extinction, end-of-life decisions for terminally ill patients, and the shift towards assessing the success of government policies in

terms of their impact on happiness

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Ethics: A Very Short Introduction Simon Blackburn, 2021-01-28 Very Short Introductions Brilliant Sharp Inspiring Our self image as moral well behaved creatures is dogged by scepticism relativism hypocrisy and nihilism and by the fear that in a Godless world science has unmasked us as creatures fated by our genes to be selfish and tribalistic or competitive and aggressive Here Simon Blackburn tackles the major moral questions surrounding birth death happiness desire and freedom showing us how we should think about the meaning of life and why we should mistrust the soundbite sized absolutes that often dominate moral debates This second edition of the Very Short Introduction on Ethics has revised and updated aspects of the original to reflect changing times and mores It highlights the importance of an understanding of approaches to ethics and its foundations confronted as we are with a fluid and uncertain world of eroding trust swirling conspiracy theories and a dismaying loss of respect in public discourse

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Buddhist Ethics: A Very Short Introduction Damien Keown, 2020-06-25 With over 520 million followers Buddhism is now the world's fourth largest religion Over the last seventy years or so there has been a growing interest in Buddhism and it continues to capture the imagination of many in the West who see it as either an alternative or a supplement to their own religious beliefs For complex cultural and historical reasons ethics has not received as much attention in traditional Buddhist thought as it has in the West In this Very Short Introduction Damien Keown explores how Buddhism approaches a range of moral issues of our age including our relationship with our environment our treatment of animals and our stance on abortion on sexuality and gender on violence and war This new edition also includes a discussion of the ethical challenges posed by cutting edge developments in science and biomedical technologies including neuroscience artificial intelligence transhumanism and gene editing

Harris, 2021 Written by one of the world's leading experts in the field this book offers a clear account of the contributions to philosophy made by one of Britain's greatest thinkers Harris covers Hume's main interests of human nature morality politics and religion and explores the philosophical questions that remain at the heart of the subject today

Niels Bohr J. L. Heilbron, 2020 Covers the life and work of the pioneer of the quantum theory of the atom who ranks with Einstein in

importance for the development of modern physics *Fyodor Dostoevsky* Deborah Martinsen, 2024-02-27 Very Short Introductions Brilliant Sharp Inspiring Fyodor Dostoevsky became the writer best known for his treatment of the big questions of ethics religion and philosophy In this Very Short Introduction Deborah Martinsen explores Dostoevsky's tumultuous life story his political imprisonment and narrow escape from execution his Siberian exile his gambling addiction his romantic marriage and his literary success Martinsen also delves into his major works Notes from Underground Crime and Punishment The Idiot Demons The Brothers Karamazov The Diary of a Writer and more Each chapter analyzes a key theme or aspect of Dostoevsky's writing that showcases his profound insights into human nature and society doubling freedom shame social justice scandal aesthetics ethics faith and the eternal questions Martinsen also demonstrates how Dostoevsky's novels remain relevant today as they address pressing questions about freedom morality and meaning in a complex world ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *Hannah Arendt* Dana Richard Villa, 2023 The book provides an overview of Hannah Arendt's 1906-75 contributions to political thought and philosophy along with a sketch of her dramatic life story A German Jewish refugee from Hitler's Germany Arendt escaped to America and became one of its most respected political thinkers and public intellectuals The book provides summary and discussion of Arendt's primary works including The Origins of Totalitarianism Eichmann in Jerusalem The Human Condition On Revolution and the posthumously published The Life of the Mind It also examines criticisms of her work and dispels some common but surprisingly widespread misinterpretations **Interpreting Schelling** Lara Ostaric, 2014-09-29 The first volume on Schelling in English exploring the study of the history of philosophy and core systematic philosophical issues **A Companion to Adorno** Peter E. Gordon, Espen Hammer, Max Pensky, 2020-04-21 A definitive contribution to scholarship on Adorno bringing together the foremost experts in the field As one of the leading continental philosophers of the last century and one of the pioneering members of the Frankfurt School Theodor W Adorno is the author of numerous influential and at times quite radical works on diverse topics in aesthetics social theory moral philosophy and the history of modern philosophy all of which concern the contradictions of modern society and its relation to human suffering and the human condition Having authored substantial contributions to critical theory which contain searching critiques of the culture industry and the identity thinking of modern Western society Adorno helped establish an interdisciplinary but philosophically rigorous study of culture and provided some of the most startling and revolutionary critiques of Western society to date The Blackwell Companion to Adorno is the largest collection of essays by Adorno specialists ever gathered in a single volume Part of the acclaimed Blackwell Companions to Philosophy series this important contribution to the field explores Adorno's lasting impact on many sub fields of philosophy Seven sections encompassing a

diverse range of topics and perspectives explore Adorno's intellectual foundations his critiques of culture his views on ethics and politics and his analyses of history and domination Provides new research and fresh perspectives on Adorno's views and writings Offers an authoritative single volume resource for Adorno scholarship Addresses renewed interest in Adorno's significance to contemporary questions in philosophy Presents over 40 essays written by internationally recognized experts in the field A singular advancement in Adorno scholarship the Companion to Adorno is an indispensable resource for Adorno specialists and anyone working in modern European philosophy contemporary cultural criticism social theory German history and aesthetics

Portalism Jeffrey Laird, 2022-11-25 The mind is not the brain The locus of our consciousness is in the world Portalism embraces radical phenomenal externalism and represents a contemporary form of dualism that rejects materialist assumptions of mind-brain identity As a philosophy of mind Portalism breaks with traditional thinking in two significant ways first by holding that consciousness is in fact a fifth fundamental force of nature endowed with behavioural attributes not unlike that of gravity and second by arguing how consciousness inheres in all living organisms regardless of their biological sophistication Portalism compels us to reject traditional monist theories about the nature of consciousness and boldly enter into a new way of thinking about our own reality

Marx: A Very Short Introduction Peter Singer, 2018-02-22 Karl Marx is one of the most influential philosophers of all time whose theories have shaped and directed political economic and social thought for 150 years Considering Marx's life and impact renowned philosopher Peter Singer identifies the central vision that unifies Marx's thought enabling us to grasp Marx's views as a whole Presenting Marx as a philosopher primarily concerned with human freedom rather than as an economist or a social scientist Singer explains Marx's key ideas on alienation historical materialism and the economic theory of Capital in plain English In this new edition Singer explores whether Marx remains relevant to the twenty-first century and if so how Does the fact that eight billionaires now own as much as the bottom half of the world's population give support to Marxist thinking Does the ease with which conservative politicians can win over working class voters by appealing to nationalism undermine Marx's view of class struggle and the inevitability of victory for the proletariat Singer ponders key questions such as these and also discusses the place of the internet as a productive force when analysed in Marxist theory He concludes with an assessment of Marx's legacy asking if there is any realistic prospect of replacing capitalism with a better system of production and distribution in the twenty-first century
