Maneuvering Board Manual combines selected chapters from the sixth edition of Pub 1310 Radar Navigation Manual and the
fourth edition of Pub 217 Maneuvering Board Manual This manual has been compiled by the editorial staff of the Maritime
Safety Information Center at the National Imagery and Mapping Agency It is intended to be used primarily as a manual of
instruction in navigation schools and by naval and merchant marine personnel By combining the previous editions of Pub
1310 and Pub 217 into one book we hope that we have provided a practical reference for mariners on board ship and
instructors ashore It is also intended to be of assistance to others who are concerned with marine radar in different and less
direct ways In combining the two manuals every effort has been made to retain the original style and format which has
proven to be clear and helpful to the maritime community Most of the illustrations and examples have been carried forward
into this edition The chapter on ARPA has been expanded and now includes a sample operating manual for a modern
commercial radar and ARPA Many excellent other publications on ARPA are available and should be consulted for a more
thorough understanding on this subject matter Users should refer corrections additions and comments for improving this
