 This timely new book outlines a whole school approach to embedding a sustainable model of teaching and learning that puts the learner at the heart of the system. It provides an entire framework for ensuring all students achieve above their expectations incorporating school vision, teacher professional development, assessment models, school culture, leadership and management and core classroom practices. It takes what the current research suggests does and does not work and builds it into a practical approach that has been tried, tested and proven to work. Each section incorporates the research, a model of how this can be embedded across a school and then a training section that allows senior leaders in schools to teach the skill set to others to ensure it can be embedded and reviewed. Covering all aspects of teaching and learning including curriculum design, teacher practices, assessment and leadership, the book features a clear planning framework that is easy to implement, subject-based case studies to exemplify good practice, diagrams to clarify and consolidate information, training activities throughout each chapter, also available to download at www.routledge.com/9780415831178. Designed to be used as a training tool for both new and established teachers, this book is essential reading for senior leaders that want to equip their teachers with the skills and knowledge to create a school of outstanding classrooms.
