Geopolitical Exotica Tibet In Western Imagination Barrows Lectures:

Geopolitical Exotica Dibyesh Anand, *Geopolitical Exotica* examines exoticized Western representations of Tibet and Tibetans and the debate over that land's status with regard to China. Concentrating on specific cultural images of the twentieth century promulgated by novels, popular films, travelogues, and memoirs, Dibyesh Anand lays bare the strategies by which Exotica Tibet and Tibetanness have been constructed and he investigates the impact these constructions have had on those who are being represented. Although images of Tibet have excited the popular imagination in the West for many years, *Geopolitical Exotica* is the first book to explore representational practices within the study of international relations. Anand challenges the parochial practices of current mainstream international relations theory and practice, claiming that the discipline remains mostly Western in its orientation. His analysis of Tibet's status with regard to China scrutinizes the vocabulary afforded by conventional international relations theory and considers issues that until now have been undertheorized in relation to Tibet, including imperialism, history, diaspora, representation, and identity. In this masterfully synthetic work, Anand establishes that postcoloniality provides new insights into themes of representation and identity and demonstrates how IR as a discipline can meaningfully expand its focus beyond the West. Dibyesh Anand is a reader in international relations at the University of Westminster, London.

"The Unknown Country": Tibet in the Western Imagination, 1850 - 1950 Jacob Smigrod Dingman, 2021. Before the late nineteenth century, very little about Tibet was known in the West. In fact, Western knowledge of Tibet developed during the waning of imperial Chinese power there and with Tibet's brief independence period, 1904-1950. This meant that when Westerners went to Asia with their own purposes in mind, the cultural material they brought back from Tibet was highly influenced by its bid for a new geopolitical position. Westerners, along with Tibetan diplomats, thus formed a network that actively promoted an idea of Tibet as an exotic, mystical realm whose entire definition was connected with its Buddhist identity.

World Politics, Representation, Identity Dibyesh Anand, 2002. [Tibet in Western Popular Imagination](#) Dibyesh Anand, 2002. **Tibet** Dibyesh Anand, 2007. Taking a post-colonial approach to International Relations, the book looks at two crucial elements of the Tibet question: the framing of the debate over its political status and Tibetan identity discourses.
