was a teen He saw how eugenics the practice of improving the quality of human genetics almost left one neighborhood boy locked up in an institution and sterilized Louis knew he fit the profile of the kids the eugenicists were trying to eradicate and fought to turn himself around to avoid the fate the other boy nearly faced For this reason he began giving away all he stole and doing random acts of kindness for neighbors and his family Bracket 1 Mason White, Przybylski, Maya, 2010-12-15 Seeking new voices and design talent the new Bracket book series is structured around an open call for entries Conceived as an almanac the series looks at emerging thematics in our global age that are shaping the built environment in radically significant yet often unexpected ways Bracket 1 On Farming looks at the capacity for architecture to address ideas and issues of productive landscapes and urbanisms Entries were selected by an international jury including Nathalie de Vries Charles Waldheim and Michael Speaks Once merely understood in terms of agriculture today information energy labour and landscape among others can be farmed Farming harnesses the efficiency of collectivity and community Whether cultivating land harvesting resources extracting energy or delegating labor farming reveals the interdependencies of our globalized world Simultaneously farming represents the local gesture the productive landscape and the alternative economy The processes of farming are mutable parametric and efficient Farming is the modification of infrastructure urbanisms architectures and landscapes toward a privileging of production *RETURN TO THE GOSPEL OF THE WATER AND THE SPIRIT* Rev.
