Understanding the Borderline Mother Christine Ann Lawson, 2002-07 The first love in our lives is our mother Recognizing her face her voice the meaning of her moods and her facial expressions is crucial to survival Dr Christine Ann Lawson vividly describes how mothers who suffer from borderline personality disorder produce children who may flounder in life even as adults futilely struggling to reach the safety of a parental harbor unable to recognize that their borderline parent lacks a pier or even a discernible shore Four character profiles describe different symptom clusters that include the waif mother the hermit mother the queen mother and the witch Children of borderlines are at risk for developing this complex and devastating personality disorder themselves Dr Lawson's recommendations for prevention include empathic understanding of the borderline mother and early intervention with her children to ground them in reality and counteract the often dangerous effects of living with a make believe mother Some readers may recognize their mothers as well as themselves in this book They will also find specific suggestions for creating healthier relationships Addressing the adult children of borderlines and the therapists who work with them Dr Lawson shows how to care for the waif without rescuing her to attend to the hermit without feeding her fear to love the queen without becoming her subject and to live with the witch without becoming her victim A Jason Aronson Book

Young Refugees and Asylum Seekers Declan Henry, 2025-02-28 There are many misconceptions about young refugees and asylum seekers in Britain Declan Henry dispels the myths and gives a compassionate and empathetic view of the daily struggles they face including discrimination racism and poverty This book explores the reasons why they came to the UK and the safeguarding issues involved the services they receive and the gaps and inequalities in the system as a whole The injustice of long Home Office delays in the processing of applications and appeal processes are outlined and as it is becoming more difficult for many young people to get Leave to Remain the impact on their lives in terms of accommodation education and planning for the future are explored The author also looks at the emotional and mental health needs of young people including those with undiagnosed learning needs and difficulties Ultimately the book paints a graphic picture of what life is like in Britain for young people cut off from their country of their origin and families and how they are expected to make a new life in Britain with limited resources There are works of non fiction that are not only timely but also extremely important *Young Refugees And Asylum Seekers* by author Declan Henry is one of them The refugee crisis and the plight of children and young adults is brought into sharp focus in this powerful challenging and well written book With precision this author highlights both the lack of resources and unfair treatment of those who enter a new country without a caregiver as well as the monumental efforts of good people who work within a challenging system to exact change while practicing kindness The

importance of seeing children as children first is at the core of this valuable book And we are reminded that the way we treat the most vulnerable is a testament to who we are fundamentally as human beings and a society I highly recommend this book to anyone who wants to better understand the refugee crisis and to those in search of an opportunity to make a difference
