Academic E-Books Suzanne M. Ward, Robert S. Freeman, Judith M. Nixon, 2015-11-15 Academic E Books Publishers Librarians and Users provides readers with a view of the changing and emerging roles of electronic books in higher education. The three main sections contain contributions by experts in the publisher vendor arena as well as by librarians who report on both the challenges of offering and managing e books and on the issues surrounding patron use of e books. The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought provoking projects involving e books. Read about perspectives on e books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e book challenges facing librarians such as the quest to control costs in the patron driven acquisitions PDA model how to solve the dilemma of resource sharing with e books and how to manage PDA in the consortial environment. See what patron use of e books reveals about reading habits and disciplinary differences. Finally in the case study section discover how to promote scholarly e books how to manage an e reader checkout program and how one library replaced most of its print collection with e books. These and other examples illustrate how innovative librarians use e books to enhance users experiences with scholarly works.

Where Have All the Textbooks Gone? Tony Read, 2015-07-22 This World Bank report is a rich compilation of information on teaching learning materials TLM in Africa based on the extensive and multi faceted experience of the author's work in the education sector in Africa. The study examines a wide range of issues around TLM provision including curriculum literacy and numeracy language of instruction policy procurement and distribution challenges TLM development and production and their availability management and usage in schools. It also looks at the role of information and communication technology ICT based TLMs and their availability. The study recognizes that improved TLM system management is a critical component in achieving affordable and sustainable TLM provision for all students. This study which draws from more than 40 Anglophone Francophone Lusophone and Arabic speaking countries will be particularly useful for policymakers development partners and other stakeholders attempting to understand the wide range of issues surrounding the complexity of textbook provision in Sub Saharan Africa.

Storage Systems Alexander Thomasian, 2021-10-13 Storage Systems Organization Performance Coding Reliability and Their Data Processing was motivated by the 1988 Redundant Array of Inexpensive Independent Disks proposal to replace large form factor mainframe disks with an array of commodity disks. Disk loads are balanced by striping data into strips with one strip per disk and storage reliability is enhanced via replication or erasure coding which at best dedicates k strips per stripe to tolerate k disk failures. Flash memories have resulted in a paradigm shift with Solid State Drives SSDs replacing Hard Disk Drives HDDs for high performance applications. RAID and Flash have resulted in the emergence of new storage companies namely EMC NetApp SanDisk and Purestorage and a multibillion dollar storage market. Key new conferences and publications are reviewed in this book. The goal of the book is to expose students researchers and

IT professionals to the more important developments in storage systems while covering the evolution of storage technologies traditional and novel databases and novel sources of data We describe several prototypes FAWN at CMU RAMCloud at Stanford and Lightstore at MIT Oracle s Exadata AWS Aurora Alibaba s PolarDB Fungible Data Center and author s paper designs for cloud storage namely heterogeneous disk arrays and hierarchical RAID Surveys storage technologies and lists sources of data measurements text audio images and video Familiarizes with paradigms to improve performance caching prefetching log structured file systems and merge trees LSMs Describes RAID organizations and analyzes their performance and reliability Conserves storage via data compression deduplication compaction and secures data via encryption Specifies implications of storage technologies on performance and power consumption Exemplifies database parallelism for big data analytics deep learning via multicore CPUs GPUs FPGAs and ASICs e g Google s Tensor Processing Units *IPad* Chris Fehily,2012 Covers the 3rd generation iPad cover
