identified as the Mass Incarceration movement in the United States Since the early 1990s activist critics of the US prison system have marked its emergence as a complex in a manner comparable to how President Eisenhower described the Military Industrial Complex Like its institutional cousin the Prison Industrial Complex features a critical combination of political ideology far reaching federal policy and the neo liberal directive to privatize institutions traditionally within the purview of the government The result is that corporations have capital incentives to capture and contain human bodies The Prison Industrial Complex relies on the law and order ideology fomented by President Nixon and developed at least partially in response to the unrest generated through the Civil Rights Movement It is and has been enhanced and emboldened via the US war on drugs a slate of policies that by any account have failed to do anything except normalize the warehousing of nonviolent substance abusers in jails and prisons that serve more as criminal training centers than as redemptive spaces for citizens who might re enter society successfully Prison Industrial Complex For Beginners is a primer for how these issues emerged and how our awareness of the systems at work in mass incarceration might be the very first step in reforming an institution responsible for some of our most egregious contemporary civil rights violations **Breaking the Pendulum**

Philip Goodman,Joshua Page,Michelle Phelps,2017-03-20 The history of criminal justice in the U S is often described as a pendulum swinging back and forth between strict punishment and lenient rehabilitation While this view is common wisdom it is wrong In Breaking the Pendulum Philip Goodman Joshua Page and Michelle Phelps systematically debunk the pendulum perspective showing that it distorts how and why criminal justice changes The pendulum model blinds us to the blending of penal orientations policies and practices as well as the struggle between actors that shapes laws institutions and how we think about crime punishment and related issues Through a re analysis of more than two hundred years of penal history starting with the rise of penitentiaries in the 19th Century and ending with ongoing efforts to roll back mass incarceration the authors offer an alternative approach to conceptualizing penal development Their agonistic perspective posits that struggle is the motor force of criminal justice history Punishment expands contracts and morphs because of contestation between real people in real contexts not a mechanical swing of the pendulum This alternative framework is far more accurate and empowering than metaphors that ignore or downplay the importance of struggle in shaping criminal justice This clearly written engaging book is an invaluable resource for teachers students and scholars seeking to understand the past present and future of American criminal justice By demonstrating the central role of struggle in generating major transformations Breaking the Pendulum encourages combatants to keep fighting to change the system American Prisons and Jails Vidisha Barua Worley,Robert M. Homelessness, 2007 Routledge Handbook of Critical Criminology Walter S. DeKeseredy, Molly Dragiewicz, 2011-10-27

The Routledge Handbook of Critical Criminology is a collection of original essays specifically designed to offer students faculty policy makers and others an in depth overview of the most up to date empirical theoretical and political contributions made by critical criminologists around the world Special attention is devoted to new theoretical directions in the field such as cultural criminology masculinities studies and feminist criminologies Its diverse essays not only cover the history of critical criminology and cutting edge theories but also the variety of research methods used by leading scholars in the field and the rich data generated by their rigorous empirical work In addition some of the chapters suggest innovative and realistic short and long term policy proposals that are typically ignored by mainstream criminology These progressive strategies address some of the most pressing social problems facing contemporary society today and that generate much pain and suffering for socially and economically disenfranchised people The Handbook explores up to date empirical theoretical and political contributions and is specifically designed to be a comprehensive resource for undergraduate and post graduate students researchers and policy makers **Barriers to Reentry?** Shawn D. Bushway, Michael A. Stoll, David Weiman, 2007-06-14

With the introduction of more aggressive policing prosecution and sentencing since the late 1970s the number of Americans in prison has increased dramatically While many have credited these get tough policies with lowering violent crime rates we are only just beginning to understand the broader costs of mass incarceration In Barriers to Reentry experts on labor markets and the criminal justice system investigate how imprisonment affects ex offenders employment prospects and how the challenge of finding work after prison affects the likelihood that they will break the law again and return to prison The authors examine the intersection of imprisonment and employment from many vantage points including employer surveys interviews with former prisoners and state data on prison employment programs and post incarceration employment rates Ex prisoners face many obstacles to re entering the job market from employers fears of negligent hiring lawsuits to the lost opportunities for acquiring work experience while incarcerated In a study of former prisoners Becky Pettit and Christopher Lyons find that employment among this group was actually higher immediately after their release than before they were incarcerated but that over time their employment rate dropped to their pre imprisonment levels Exploring the demand side

of the equation Harry Holzer Steven Raphael and Michael Stoll report on their survey of employers in Los Angeles about the hiring of former criminals in which they find strong evidence of pervasive hiring discrimination against ex prisoners Devah Pager finds similar evidence of employer discrimination in an experiment in which Milwaukee employers were presented with applications for otherwise comparable jobseekers some of whom had criminal records and some of whom did not Such findings are particularly troubling in light of research by Steven Raphael and David Weiman which shows that ex criminals are more likely to violate parole if they are unemployed In a concluding chapter Bruce Western warns that prison is becoming the norm for too many inner city minority males by preventing access to the labor market mass incarceration is exacerbating inequality Western argues that ultimately the most successful policies are those that keep young men out of prison in the first place Promoting social justice and reducing recidivism both demand greater efforts to reintegrate former prisoners into the workforce Barriers to Reentry cogently underscores one of the major social costs of incarceration and builds a compelling case for rethinking the way our country rehabilitates criminals

**Trial and Error in Criminal Justice Reform** Greg Berman, Aubrey Fox, 2016-03-21 In this revised edition of their concise readable yet wide ranging book Greg Berman and Aubrey Fox tackle a question students and scholars of law criminology and political science constantly face what mistakes have led to the problems that pervade the criminal justice system in the United States The reluctance of criminal justice policymakers to talk openly about failure the authors argue has stunted the public conversation about crime in this country and stifled new ideas It has also contributed to our inability to address such problems as chronic offending in low income neighborhoods an overreliance on incarceration the misuse of pretrial detention and the high rates of recidivism among parolees Berman and Fox offer students and policymakers an escape from this fate by writing about failure in the criminal justice system Their goal is to encourage a more forthright dialogue about criminal justice one that acknowledges that many new initiatives fail and that no one knows for certain how to reduce crime For the authors this is not a source of pessimism but a call to action This revised edition is updated with a new foreword by Cyrus R Vance Jr and afterword by Greg Berman

A Fundamental Mistake Graham Cliff, 2012-06-01 Does it puzzle you that despite ever increasing rules controls and counter measures antisocial behaviour is seemingly spiralling out of control Why have there been riots in Britain Why is law enforcement failing to make our society a better place in which to live Have our politicians lost the plot Are our values wrong A Fundamental Mistake explains why a change of direction is needed in society's thinking about how to get people to behave themselves it also offers a carefully argued strategy by which to achieve this The emphasis needs to shift away from coercion and punishment and towards inducement and reward The remarkable thing is that although we already have the necessary knowledge it's not put to good use Taking a fresh approach Graham Cliff draws on mainstream behavioural psychology and applied ethics to make his case for challenging some of our time honoured cultural assumptions and practices Be prepared to re think your position Despite the weightiness of the subject this is a book for everyone because it works up from first principles in a readily readable way No expertise is needed to follow the flow from the basics of human nature to the way our minds work then through the web of customs and rules that make up society on to government laws and punishment and finally to how and why things might be done differently Nobody will agree with everything that A Fundamental Mistake has to say because that's what debate is all about However it's as well to remember this when it comes to tackling antisocial behaviour it's not enough just to get tough we must get clever too

**Caught** Marie Gottschalk, 2016-02-16 A major reappraisal of crime and punishment in America The huge prison buildup of the past four decades has few defenders yet reforms to reduce the numbers of those incarcerated have been remarkably modest Meanwhile an ever widening carceral state has sprouted in the shadows extending its reach far beyond the prison gate It sunders families and communities and reworks conceptions of democracy rights and citizenship posing a formidable political and social challenge In Caught Marie Gottschalk examines why the carceral state remains so tenacious in the United States She analyzes the shortcomings of the two dominant penal reform strategies one focused on addressing racial disparities the other on seeking bipartisan race neutral solutions centered on reentry justice reinvestment and reducing recidivism With a new preface evaluating the effectiveness of recent proposals to reform mass incarceration Caught offers a bracing appraisal of the politics of penal reform

**On the Outside** David J. Harding, Jeffrey D. Morenoff, Jessica J. B. Wyse, 2019-02-21 One of the Vera Institute of Justice's Best Criminal Justice Books of 2019 America's high incarceration rates are a well known facet of contemporary political conversations Mentioned far less often is what happens to the nearly 700 000 former prisoners who rejoin society each year On the Outside examines the lives of twenty two people varied in race and gender but united by their time in the criminal justice system as they pass out of the prison gates and back into the world The book takes a clear eyed look at the challenges faced by formerly incarcerated citizens as they try to find work housing and stable communities Standing alongside these individual portraits is a quantitative study conducted by the authors that followed every state prisoner in Michigan who was released on parole in 2003 roughly 11 000 individuals for the next seven years providing a comprehensive

view of their postprison neighborhoods families employment and contact with the parole system On the Outside delivers a powerful combination of hard data and personal narrative that shows why our country continues to struggle with the social and economic reintegration of the formerly incarcerated For further information including an instructor guide and slide deck please visit <http://ontheoutsidebook.us/home/instructors> Correctional Theory Francis T. **Parole, Desistance from Crime, and Community Integration** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Community Supervision and Desistance from Crime, 2007-12-26 Every day about 1 600 people are released from prisons in the United States Of these 600 000 new releasees every year about 480 000 are subject to parole or some other kind of postrelease supervision Prison releasees represent a challenge both to themselves and to the communities to which they return Will the releasees see parole as an opportunity to be reintegrated into society with jobs and homes and supportive families and friends Or will they commit new crimes or violate the terms of their parole contracts If so will they be returned to prison or placed under more stringent community supervision Will the communities to which they return see them as people to be reintegrated or people to be avoided And the institution of parole itself is challenged with three different functions to facilitate reintegration for parolees who are ready for rehabilitation to deter crime and to apprehend those parolees who commit new crimes and return them to prison In recent decades policy makers researchers and program administrators have focused almost exclusively on recidivism which is essentially the failure of releasees to refrain from crime or stay out of prison In contrast for this study the National Institute of Justice NIJ of the U S Department of Justice asked the National Research Council to focus on desistance which broadly covers continued absence of criminal activity and requires reintegration into society Specifically the

committee was asked 1 to consider the current state of parole practices new and emerging models of community supervision and what is necessary for successful reentry and 2 to provide a research agenda on the effects of community supervision on desistance from criminal activity adherence to conditions of parole and successful reentry into the community To carry out its charge the committee organized and held a workshop focused on traditional and new models of community supervision the empirical underpinnings of such models and the infrastructure necessary to support successful reentry Parole Desistance from Crime and Community Integration also reviews the literature on desistance from crime community supervision and the evaluation research on selected types of intervention

**The Big House in a Small Town** Eric J. Williams, 2011-03-03 This work is an in depth on the ground examination of how prisons impact rural communities including a revealing study of two rural communities that have chosen prisons as an economic development strategy A recent study by the Urban Institute estimates that one third of all counties in the United States house a prison and that our prison and jail population is now over 2.1 million Another report indicates that more than 97 percent of all U.S. prisoners are eventually released and communities are absorbing nearly 650,000 formerly incarcerated individuals each year These figures are particularly alarming considering the fact that rural communities are using prisons as economic development vehicles without fully understanding the effects of these jails on the area This book is the result of author Eric J. Williams ground level research about the effects of prisons upon two rural American communities that lobbied to host maximum security prisons Through hundreds of interviews conducted while living in Florence Colorado and Beeville Texas Williams offers the perspective of local residents on all sides of the issue as well as a social history told mainly from the standpoint of those who lobbied for the prisons
