Who's Your Paddy? Jennifer Nugent Duffy, 2014 After all the green beer has been poured and the ubiquitous shamrocks fade away what does it mean to be Irish American besides St Patrick s Day *Who's Your Paddy* traces the evolution of Irish as a race based identity in the U S from the 19th century to the present day Exploring how the Irish have been and continue to be socialized around race Jennifer Nugent Duffy argues that Irish identity must be understood within the context of generational tensions between different waves of Irish immigrants as well as the Irish community s interaction with other racial minorities Using historic and ethnographic research Duffy sifts through the many racial class and gendered dimensions of Irish American identity by examining three distinct Irish cohorts in Greater New York assimilated descendants of nineteenth century immigrants white flighters who immigrated to postwar America and fled places like the Bronx for white suburbs like Yonkers in the 1960s and 1970s and the newer largely undocumented migrants who began to arrive in the 1990s What results is a portrait of Irishness as a dynamic complex force in the history of American racial consciousness pertinent not only to contemporary immigration debates but also to the larger questions of what it means to belong what it means to be American

Saving Face Angie Y. Chung, 2016-09-20 Tiger Mom Asian patriarchy Model minority children Generation gap The many images used to describe the prototypical Asian family have given rise to two versions of the Asian immigrant family myth The first celebrates Asian families for upholding the traditional heteronormative ideal of the normal white American family based on a hard working male breadwinner and a devoted wife and mother who raises obedient children The other demonizes Asian families around these very same cultural values by highlighting the dangers of excessive parenting oppressive hierarchies and emotionless pragmatism in Asian cultures *Saving Face* cuts through these myths offering a more nuanced portrait of Asian immigrant families in a changing world as recalled by the people who lived them first hand the grown children of Chinese and Korean immigrants Drawing on extensive interviews sociologist Angie Y Chung examines how these second generation children negotiate the complex and conflicted feelings they have toward their family responsibilities and upbringing Although they know little about their parents lives she reveals how Korean and Chinese Americans assemble fragments of their childhood memories kinship narratives and racial myths to make sense of their family experiences However Chung also finds that these adaptive strategies come at a considerable social and psychological cost and do less to

reconcile the social stresses that minority immigrant families endure today Saving Face not only gives readers a new appreciation for the often painful generation gap between immigrants and their children it also reveals the love empathy and communication strategies families use to help bridge those rifts **Contested Voices** M. Hurd,2019-01-21 *The Reflexivity of Pain and Privilege* offers a fresh and critical perspective to people of indigenous and or marginalized identifications It highlights the research shared experiences and personal stories and the artistic collections of those who are of mixed heritage and or identity as well as the perspectives of young adolescents who identify as being of mixed racial socio economic linguistic and ethno cultural backgrounds and experiences These auto ethnographic collections serve as an impetus for the untold stories of millions of marginalized people who may find solace here and in the stories of others who are of mixed identity *Migration and Care Labour* B. Anderson,I. Shutes,2014-03-18 The provision of care has been widely referred to as facing a crisis International migrants are increasingly relied upon to provide care as domestic workers nannies care assistants and nurses This international volume examines the global construction of migrant care labour and how it manifests itself in different contexts *The Legal Understanding of Slavery* Jean Allain,2012-09-27

Slavery is the status or condition of a person over whom any or all of the powers attaching to the right of ownership are exercised So reads the legal definition of slavery agreed by the League of Nations in 1926 Further enshrined in law during international negotiations in 1956 and 1998 this definition has been interpreted in different ways by the international courts in the intervening years What can be considered slavery Should forced labour be considered slavery Debt bondage Child soldiering Or forced marriage This book explores the limits of how slavery is understood in law It shows how the definition of slavery in law and the contemporary understanding of slavery has continually evolved and continues to be contentious It traces the evolution of concepts of slavery from Roman law through the Middle Ages the 18th and 19th centuries up to the modern day manifestations including manifestations of forced labour and trafficking in persons and considers how the 1926 definition can distinguish slavery from lesser servitudes Together the contributors have put together a set of guidelines intended to clarify the law where slavery is concerned The Bellagio Harvard Guidelines on the Legal Parameters of Slavery reproduced here for the first time takes their shared understanding of both the past and present to project a consistent interpretation of the legal definition of slavery for the future **Migration, Illness and Healthcare** Jenny

Altschuler,2016-06-30 Forces such as political conflict globalisation and the growth of the internet offering news of life elsewhere mean levels of migration are higher now than at any other time in history Despite the signing of a number of legally binding international treaties that seek to guarantee health care for migrants there is still a considerable gap between government commitments and the reality of everyday life As levels of migration continue to increase it is essential for health care professionals to consider the differing needs of migrants in order to provide them with quality care Informed by

systemic theory and drawing on the author's extensive clinical as well as personal experience this timely book explores the limited existing information about migrants health care experiences Providing a comprehensive insight into a worldwide issue this is an essential guide for health care students professionals and policy makers **Handbook of Race-Ethnicity and Gender in Psychology** Marie L. Miville, Angela D. Ferguson, 2014-02-06 Multicultural aspects of psychology have received some attention in the literature in the last decade A number of texts currently address these significant concerns for example Counseling the Culturally Different Sue Handbook of Multicultural Counseling Poterotto et al 2009 and Handbook of Multicultural Counseling Competencies Pope Davis Coleman 2005 In their most recent editions several of these books address more nuanced complexities of diversity for example the intersections of gender or social class with race ethnicity Meanwhile other texts have addressed gender issues in psychology Handbook of Counseling Women Counseling Men with some attention paid to racial ethnic and other diversity concerns Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology However no book currently exists that fully addresses the complexities of race ethnicity and gender together Better understanding of the dual impact of race ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues such as domestic violence addictions health related behaviors and achievement Exploring the impact of race ethnicity and gender also may provide a broader understanding of self in community as this affects individuals families and other social groups and work and career development Topics of interest may include identity development worldviews and belief systems parenting styles interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities Today's world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health We believe that utilizing unidimensional conceptual models e.g. focusing solely on race ethnicity or gender no longer adequately addresses psychological concerns that are dynamic complex and multi faceted The proposed Handbook will focus on timely topics which historically have been under addressed for a number of diverse populations *Linked Lives* Michele Ruth Gamburd, 2020-11-13 When youth shake off their rural roots and middle aged people migrate for economic opportunities what happens to the grandparents left at home *Linked Lives* provides readers with intimate glimpses into homes in a Sri Lankan Buddhist village where elders wisely use their moral authority and their control over valuable property to assure that they receive both physical and spiritual care when they need it The care work that grandparents do for grandchildren allows labor migration and contributes to the overall well being of the extended family The book considers the efforts migrant workers make to build and buy houses and the ways those rooms and walls constrain social activities It outlines the strategies elders employ to age in place and the alternatives they face in local old folks homes Based on ethnographic work done over a decade Michele Gamburd shows how elders face the challenges of a rapidly globalizing world *Child Care and*
