Doughboy to GI Kenneth Lewis, 2002 *Doughboy to GI* Kenneth Lewis, 1993 **Doughboy to G.I.** Kenneth Lewis, 1993 **World War II US Army Combat Equipments** Gordon L. Rottman, 2016-02-25 A soldier's web gear is as important to his ability to live and fight on the battlefield as are his clothing and weapons. In World War II the US Army issued equipment items that had originated in 1910 though modified and augmented in the 1920s and 1930s and again during the war itself as a result of combat experience. This book describes and illustrates the great majority of the personal equipment provided for infantry riflemen, GIs armed with other weapons and their ammunition bearers, officers and medics. In addition to the web gear itself it covers canteens, mess kit and first aid items, weapons related and other specialist items, the long struggle to produce a practical backpack, bivouac and shelter gear and the most commonly carried tools. The text also explains the basics of materials, colors, markings, nomenclature and weights for the guidance of collectors. It is illustrated with wartime photos and color close-ups and the wide-ranging color plates specially prepared for this book offer more than 130 images.

The US Army in World War II (1) Mark Henry, 2012-05-20 When World War II broke out in September 1939 the US Army starved of resources since 1919 numbered just 174 000 men. By VJ Day 2 September 1945 a total of 8.3 million had served in an army which had risen to a stable strength of 91 divisions. The Army's contribution to the war against Japan 20 divisions and numerous smaller units has tended to be overshadowed by the exploits of the much smaller Marine Corps. This first of three titles describes the organisation, uniforms and equipment of the US Army in the CBI and the Central and South West Pacific from 1941 to 1945. **Men at Arms 342 347 and 350** are also available as a single volume special edition as **The US Army in World War II**.

The US Army in World War II (2) Mark Henry, 2012-09-20 It was the Mediterranean theatre which saw the blooding of the US Army against the German Wehrmacht in North Africa in winter 1943/44. After this rough education the US forces pressed on to Sicily, the South of France and the Italian mainland. Here faced by difficult terrain they and their British Commonwealth allies fought a long campaign until VE Day. This second of a series of three MAA titles covers the uniforms worn on these fronts including US Army cold weather, airborne and tankers gear, some particularly interesting and important units including mountain, Japanese American and African American troops and a variety of crew served weapons. **Men at Arms 342 347 and 350** are also available as a single volume special edition as **The US Army in World War II**.
