Harnessing the Sky Frederick Trapnell,Dana Trapnell Tibbitts,2015-07-15 Harnessing the Sky is one of the last untold stories in 100 years of naval aviation Th is biography of Vice Adm Frederick M Trapnell explores the legacy of the man who has been called the godfather of current naval aviation A pilot of calculated courage Trap entered the Navy when test pilots were more like stuntmen than engineers Airplanes had not yet come into their own as weapons of war and they had an undeveloped role in the fleet His vision and leadership shaped the evolution of naval aviation through its formative years and beyond When the threat of war in 1940 raised an alarm over the Navy s deficiency in aircraft especially fighters Trap was appointed to lead the Flight Test Section to direct the development of all new Navy airplanes He played a key role in expediting the evolution of the two superb fighters that came to dominate the air war against Japan the Corsair and Hellcat After World War II Trap returned as commander of the Naval Air Test Center to lead the Navy through the challenges of transitioning to jets Trap was not only the first U S Navy pilot to fly a jet but is also recognized for defining the operating requirements for carrier based jet propelled aircraft Over the course of two decades Trap tested virtually every naval aircraft prototype and pioneered the philosophy and the methods of the engineering test pilot He demanded comprehensive testing of

each airplane in conditions and maneuvers it would face in wartime fleet operations These innovations kept the Navy at the forefront of modern aviation and stand as an enduring legacy to the man who is regarded as the foremost test pilot in a century of naval aviation

From Yeomanettes to Fighter Jets Randy Carol Goguen, 2024-03-06 From Yeomanettes to Fighter Jets addresses a major element of twenty first century sea power the integration of women into all military units of the U S Navy Randy Goguen delineates the cultural economic and political conditions as well as the technological changes that shaped this movement over the course of a century Starting with the establishment of the Yeomen F in World War I and continuing through today to address the current arguments over the registration of women for Selective Service and the reform of the military justice system Goguen describes how changes in civilian society affected the U S Navy and the role of Navy women She highlights the contributions of key women and men in the military and civilian spheres who were willing to challenge convention and prejudice to advance the integration of women and make the U S Navy a stronger institution Today women in the U S Navy have proven themselves essential to the mission success of the service They are forward deployed around the world sharing the same risks as their male counterparts Some have commanded logistics and combatant ships including aircraft carriers They fly and maintain combat and patrol aircraft and serve as crew members on ships and submarines Some hold major commands ashore and have risen to the highest echelons of navy leadership Integrating women into the U S Navy has been a long and often contentious process as women strived to overcome resistance imposed by prevailing cultural and institutional norms and patriarchal prejudices Goguen a retired naval reserve officer who holds a PhD in military history from Temple University has written a comprehensive and up to date history of women s integration into the Navy She argues that throughout the process the decisive force driving progress was exigency That exigency took various forms two world wars communist expansionism in the Cold War the ending of the draft and the establishment of the All Volunteer Force as well as the political pressures posed by social change especially the mid twentieth century feminist and contemporary Me Too movements Despite a deeply ingrained institutional resistance cultivated within an insular often misogynist sea going subculture today s U S Navy could not meet its mission requirements without women Goguen asserts Exigency is the mother of integration
