Entangled Encounters at the National Zoo Daniel Vandersommers, 2023-09-29 Founded amid the urban commotion of Washington DC before the dawn of the twentieth century the National Zoological Park opened to preserve teach and conduct research about the animal world *Entangled Encounters at the National Zoo* is a study of this important cultural landmark from 1887 to 1920 Centered on the animals themselves each chapter looks from a different angle at the influential science of popular zoology in order to shed new light on the complex entangled relationships between humans and animals Daniel Vandersommers's goal is twofold First through narrative he shows how zoo animals always ran away from the zoo This is meant literally animals escaped frequently but even more so figuratively Living breathing historical zoo animals ran away from their cultural constructions and these constructions ran away from the living bodies they were made to represent The author shows that the resulting gaps produced by runaway animals contain concealed distorted and erased histories worthy of uncovering Second *Entangled Encounters at the National Zoo* demonstrates how the popular zoology fostered by the National Zoo shaped every aspect of American science culture and conservation during the Gilded Age and Progressive Era Between the 1880s and World War I as intellectuals debated Darwinism and scientists institutionalized the laboratory zoological parks suddenly appeared at the heart of nearly every major American city captivating tens of millions of visitors Vandersommers follows stories previously hidden within the National Zoo in order to help us reconsider the place of zoos and their inhabitants in the twenty first century *Leave It As It Is* David Gessner, 2020-08-11 Bestselling author David Gessner's wilderness road trip inspired by America's greatest conservationist Theodore Roosevelt is a rallying cry in the age of climate change Robert Redford *Leave it as it is* Theodore Roosevelt announced while viewing the Grand Canyon for the first time The ages have been at work on it and man can only mar it Roosevelt's pronouncement signaled the beginning of an environmental fight that still wages today To reconnect with the American wilderness and with the president who

courageously protected it acclaimed nature writer and New York Times bestselling author David Gessner embarks on a great American road trip guided by Roosevelt s crusading environmental legacy Gessner travels to the Dakota badlands where Roosevelt awakened as a naturalist to Yellowstone Yosemite and the Grand Canyon where Roosevelt escaped during the grind of his reelection tour and finally to Bears Ears Utah a monument proposed by Native Tribes that is currently embroiled in a national conservation fight Along the way Gessner questions and reimagines Roosevelt s vision for today s lands

Insightful observant and wry BookPage Leave It As It Is offers an arresting history of Roosevelt s pioneering conservationism a powerful call to arms and a profound meditation on our environmental future *Find Your Story, Write Your Memoir* Lynn C. Miller, Lisa Lenard-Cook, 2013-05-31 Every person has a story to tell but few beginners know how to uncover their story s narrative potential And despite a growing interest among students and creative writers few guides to the genre of memoirs and creative nonfiction highlight compelling storytelling strategies Addressing this gap the authors provide a guide to memoir writing that shows how an aspiring writer can use storytelling tools and tactics borrowed from fiction to weave personal experiences into the shape of a story *Sheep* Philip Armstrong, 2016-06-15 The ancient Egyptians worshipped them the Romans dressed them in fitted coats and the Christians associated them with their divine savior In *Sheep* Philip Armstrong traces the natural and cultural history of both wild and domestic species of ovis from the Old World mouflon to the corkscrew horned flocks of the Egyptians from the Trojan sheep of Homer s *Odyssey* to the cannibal sheep of Thomas More s *Utopia* from the vast migratory mobs of Spanish merinos all the way to Dolly the first animal we have ever cloned and Haruki Murakami s sheep human hybrids As Armstrong shows humans have treated sheep with awe cruelty or disdain for many thousands of years Our exploitation of them for milk meat and wool but also for artistic and cultural purposes has shaped both our history and theirs Despite all that we owe them we have often dismissed sheep as the least witted and least interesting of mammals to be accused of sheepishness or behaving like a flock of sheep is to be denigrated for lack of courage individuality or will Yet as this book demonstrates sheep actually possess highly sophisticated social skills and emotional intelligence Above all *Sheep* demonstrates that sometimes the most mundane animals turn out to be the most surprising *Animals' Best Friends* Barbara J. King, 2021-03-23 King s *Animals Best Friends* is the most comprehensive exploration I ve read of the complex relationship between the human and nonhuman full of great insights and practical information Jeff VanderMeer New York Times Book Review By the Book Finalist for the 2021 Siskiyou Prize for New Environmental Literature As people come to understand more about animals inner lives the intricacies of their thoughts and the emotions that are expressed every day by whales and cows octopus and mice even bees we feel a growing compassion a desire to better their lives But how do we translate this compassion into helping other creatures both those that are and are not our pets Bringing together the latest science with heartfelt storytelling *Animals Best Friends* reveals the opportunities we have in everyday life to help animals in our homes in the wild in zoos and in science labs as well as those considered to be

food Barbara J King an expert on animal cognition and emotion guides us on a journey both animal and deeply human We meet cows living relaxed lives in an animal sanctuary and cows with plastic portals in their sides at a university research station We observe bison free roaming at Yellowstone National Park and chimpanzees confined to zoos We learn with King how to negotiate vegetarian preferences in omnivore restaurants We experience the touch of a giant Pacific octopus tasting King s skin with one of his long neuron rich arms We reflect on animal testing as King shares her own experience as the survivor of a particularly nasty cancer And in a moment all too familiar to many of us we recover from a close encounter with two spiders in the home This is a book not of shaming and limitation but of uplift and expansion Throughout this journey King makes no claims of personal perfection Though an animal expert she is just like the rest of us on a journey still learning each day how to be better and do better for animals But as *Animals Best Friends* makes clear challenging choices can bring deep rewards By turning compassion into action on behalf of animals we not only improve animals lives we also immeasurably enrich our own
