**The Advocate** ,2001-08-14 The Advocate is a lesbian gay bisexual transgender LGBT monthly newsmagazine Established in 1967 it is the oldest continuing LGBT publication in the United States *Sports Connection Integrated Simulation, Microsoft Office 97 Text with D Ata Disk* Susie H. Vanhuss,Connie Forde,1998-10 *Twenty20 and the Future of Cricket* Chris Rumford,2013-09-13 Cricket is a sport which is currently undergoing a rapid and dramatic transformation Traditionally thought of as an English summer game limited in appeal to Britain and its Commonwealth cricket has in the past a few years achieved a global profile This is largely due to the development of a new TV friendly format of the game Twenty20 cricket Indeed through the economic and media interests promoting the Indian Premier League IPL the world s richest Twenty20 tournament cricket has belatedly gone global The rapid rise of the IPL underlines that the economic and political characters within cricket are no longer the traditional elites in metropolitan centres but the businessmen of India and the media entrepreneurs world wide who seek to shape new audiences for the game and create new marketing opportunities on a global scale The contributions in this book fall into two broad categories There are firstly those which explore the rapid growth of Twenty20 particularly the motors of change and the new directions that cricket is taking as a result of the Twenty20 revolution Secondly there are a number of contributions which chart the impact of Twenty20 on traditional elements of the game This book was originally published as a special issue of Sport in Society **The Impact of Athletic Performance on Alumni Giving** Jonathan Meer,2010 An ongoing controversy in the literature on the economics of higher education centers on whether the success of a school s athletic program affects alumni donations This paper uses a unique data set to investigate this issue The data contain detailed information about donations made by alumni of a selective research university as well as a variety of their economic and demographic characteristics One important question is how to characterize the success of an athletic program We focus not only on the performance of the most visible teams football and basketball but also on the success of the team on which he or she played as an undergraduate One of our key findings is that the impact of athletic success on donations differs for men and women When a male graduate s former team wins its conference championship his donations for general purposes increase by about 7 percent and his donations to the athletic program increase by about the same percentage Football and basketball records generally have small and statistically insignificant effects in some specifications a winning basketball season reduces donations For women there is no statistically discernible effect of a former team s success on current giving as is the case for men the impacts of football and basketball while statistically significant in some specifications are not important in magnitude Another novel result is that for males varsity athletes whose teams were successful when they were undergraduates subsequently make larger donations to the athletic program For example if a male alumnus s team won its conference championship during his senior year his subsequent giving to the athletic program is about 8 percent a year higher ceteris paribus The Impact of Athletic
