century Christianity s place and role in the world have changed dramatically In 1900 80 percent of the world s Christians
lived in Europe and North America Today more than 60 percent of the world s Christians live outside of that region This
change calls for a reexamination of the way the story of Christianity is told the methodological tools for its analysis and its
modes of expression Perhaps most significant is the role of Africa as the new Christian heartland The questions and answers
about Christianity and its contemporary mission now being developed in the African churches will have enormous influence
in the years to come This volume offers nine new essays addressing this sea change and its importance for the future of
Christianity Some contributions consider the development of non Western forms of Christianity others look at the impact of
these new Christianities in the West The authors cover a wide range of topics from the integration of witchcraft and

Christianity in Nigeria and the peacemaking role of churches in Mozambique to the American Baptist reception of Asian Christianity The Changing Face of Christianity shows the striking cultural differences between the new world Christianity and its western counterpart But with so many new immigrants in Europe and North America the faith's fault lines are not purely geographical The new Christianity now thrives in American and European settings and northerners need to know this faith better At stake is their ability to be good neighbors and perhaps to be good Christian citizens of the world The Christian Century ,1925 **The Missionary Review of the World** ,1907 The Missionary Review ,1907 *Books of 1921-1925* Chicago Public Library,1927 Books of 1912- ,1922 **Publication** American Sociological Society,1924
