

RoadRunner LX100

Affordable Brilliance and Professional Projection Quality

Building on the success of Christie's RoadRunner L6 and L8, the latest addition to the series, the LX100, steps up both brightness and performance levels to ensure your optimum presentation, no matter what the environment.

The LX100 provides an amazing 10000 ANSI lumens and a quad lamp light engine mode for bright, beautifully realistic images with no worries about reliability, perfect for Rental Staging and Fixed Installation environments. New 3D digital video processing, 90% brightness uniformity and an 1100:1 contrast ratio take your image presentation to the next level. The new Fast Lens Change (FLC™) mount is a robust new mounting system designed for no-fuss lens changes and easy set-up.

With an option of lamp usage, the LX100 offers the choice between projecting 10000 ANSI lumens for stunningly bright images, or 5000 ANSI lumens to extend the lamp life and provide built-in redundancy for fail-safe operation.

Compatible with the new Real Color Manager (RCM) software, users can target and match the displayed color to specific gamma curves and reference monitors for a picture-perfect presentation and real-life images.

As one of the RoadRunner series, the LX100 is compatible with a full array of both video and data inputs, and as a Christie projector, offers flexible digital connectivity with a range of optional interface cards to eliminate picture noise and signal degradation.
