*A case study of Chipotle Mexican Grill. What are the key factors for the competitive success of the company?* Joe Wessh, 2019-08-13 Essay from the year 2019 in the subject Business economics Business Management Corporate Governance grade 4 6 University of Toronto language English abstract Despite the industry within which a company operates there are various key success factors that enable a company to survive and develop Key success factors are an essential part of the company s competitive success and it is this important that the company pay a considerable attention to them The elements

of a company must correspond with the key success factors required in the industry in order for it to survive and grow. As far as the case is concerned, the fast casual restaurant industry is heavily competitive, making it hard for most of the restaurants to survive and remain successful. Six major rivals, Burger King Corporation, Jack in the Box, McDonald's, Wendy's Group, Starbucks, and Yum Brands, occupy about 40 percent of the market. The remaining 60 percent consists of smaller competitors such as Panera, Panda Express, and Chipotle Mexican Grill. Each competitor offers distinguishable products aligned with their core capabilities. Hence, the intense threat of rivalry in this industry requires restaurants to be distinctive and innovative so that they can achieve a competitive edge. Those restaurants that are unable to maintain a constant competitive advantage end up failing.

Chipotle Mexican Grill Russell Walker, Greg Merkley, 2017. By any measure, Chipotle Mexican Grill was a success story in the restaurant business. It grew from one location in 1993 to over 2,000 locations by 2016 and essentially created the fast casual dining category. Its stock appreciated more than 1,000% in the ten years following its 2006 IPO. However, after more than 20 years without a major reported food safety incident, Chipotle was revealed as the source of multiple outbreaks of illness from norovirus, salmonella, and E. coli that sickened nearly 600 people in 13 states in 2015. The company closed stores, spent several months under investigation by the U.S. Centers for Disease Control and Prevention (CDC) and other health organizations, and faced a criminal investigation in connection with the incidents. After a much-publicized closing of all of its stores on February 8, 2016, and numerous changes to its food sourcing and preparation practices, Chipotle tried to win back customers with dramatically increased advertising and free food promotions. However, on April 26, the chain announced its first ever quarterly loss as a public company. Same-store sales for the first quarter were 29.7% lower than in the previous year. Operating margins fell from 27.5% to 6.8% over the same period, and the company's share price was down 41% from its summer 2015 high.

**Crazy for Chipotle** Lynn Nusom, 2004. The rich, smoky Chipotle Chile discovered long ago by ancient Mesoamerican cultures has been passed down through the generations and is now the latest trend in Southwest kitchens. Made from smoked and dried jalapeños, these chiles present complex, intriguing hints of chocolate and nuts. Crazy for Chipotle takes those age-old flavors and adds them to modern recipes sure to perk up taste buds all across the country.

**Book jacket: Chipotle Mexican Grill, Inc.** Sylvia Banda, Fable Moon, Bradley Wise, James S. O'Rourke, 2016. In late 2015, Chipotle Mexican Grill experienced a large-scale food safety crisis. The company's restaurants were identified as the source of an E. coli outbreak that affected 14 states and led to more than 20 hospitalizations. Known for its Food With Integrity initiative and having experienced a decade of explosive growth, the company's livelihood was being threatened by the design of its own supply chain. Customers were scared, and the issue had attracted the attention of investors, regulators, and the national news media. Chipotle needed to respond.
