Toward a New Foundationalism Bernard Freydberg, 2020-12-17 This book addresses the breach within contemporary philosophy with a newly conceived foundationalism It shows that dramatic discord has arisen between its two dominant branches The Anglo American branch generally takes its departure from logic and from natural science while the Continental branch generally takes its departure from art and from the great traditional questions However they share this common negative feature each side denies the view that philosophy issues from a central foundation The book gives brief distillations of six major Anglo American figures Carnap James Quine Davidson and Kripke as well as six major Continental figures Husserl the only foundationalist Heidegger Merleau Ponty Derrida Gadamer and Sallis In each the author discovers a hidden foundation called ruling image that animates the philosopher s thought *Billboard* ,1961-04-24 In its 114th year *Billboard* remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *Cadence* Bob Rusch, 1994 *The Roots of Western Swing* John L. Clark, Jr., 2023-09-29 This book details the early history of what came to be known as Western swing a hybrid of country jazz blues and cowboy music that reached its peak popularity in the 1940 s In the 1930 s the emphasis was firmly on the jazz elements Most early bands such as the Light Crust Doughboys Milton Brown and His Brownies and Bob Wills and His Texas Playboys recognized the influence of African American and white jazz players of the 1920 s and 1930 s and featured musicians who self identified as jazz musicians and foregrounded elements such as improvisation blues expression and repertoire from the tradition Many of these players incorporated these elements and developed an original style that was eventually absorbed into Western swing **Music, Movies, Meanings, and Markets** Morris Holbrook, 2012-01-25 *Music Movies Meanings and Markets* focuses on macromarketing related aspects of film music in general and on the cinemusical role of ambi diegetic jazz in particular The book examines other work on music in motion pictures which has dealt primarily with the traditional distinction between nondiegetic film music background music that comes from off screen and is not audible to the film s characters to further the dramatic development of plot character or other themes and diegetic music source music produced on screen and or that is audible to the film s characters adding to the realism of the mise en sc ne without contributing much to other dramatic meanings This book defines describes and illustrates another hitherto neglected type of film music ambi

diegetic film music which appears on screen but which contributes to the dramatic development of plot character and other themes Consistent with an interest in macromarketing such ambi diegetic film music serves as a kind of product placement suitable for commercialization via the cross promotion of soundtrack albums for example and plays a role in product design It also provides one type of symbolic consumer behavior that indicates choices made by film characters when playing singing listening or dancing in ways that reveal their personalities or convey other cinemusical meanings Morris Holbrook argues that ambi diegetic film music sheds light on various social issues such as the age old tension between art and entertainment as it applies to the contrast between creative integrity and commercialization Music Movies Meanings and Markets explores the ways in which ambi diegetic jazz contributes to the development of dramatic meanings in various films many of which address the art versus commerce theme as a central concern **The View from the Back of the Band** Chris
