Meadow-Orlans, Marilyn Sass-Lehrer, Donna M. Mertens, 2003

Three scholars from Gallaudet U in Washington D C discuss the results of their research into the experiences of young deaf and hard of hearing children and their parents Based upon a nationwide survey of parents with six to seven year old children as well as 80 in depth interviews the text describes The SAGE Deaf Studies Encyclopedia Genie Gertz, Patrick Boudreault, 2016-01-05 The time has come for a new in depth encyclopedic collection of articles defining the current state of Deaf Studies at an international level and using the critical and intersectional lens encompassing the field The emergence of Deaf Studies programs at colleges and universities and the broadened knowledge of social sciences including but not limited to Deaf History Deaf Culture Signed Languages Deaf Bilingual Education Deaf Art and more have served to expand the activities of research teaching analysis and curriculum development The field has experienced a major shift due to increasing awareness of Deaf Studies research since the mid 1960s The field has been further influenced by the Deaf community's movement resistance activism and politics worldwide as well as the impact of technological advances such as in communications with cell phones computers and other devices A major goal of this new encyclopedia is to shift focus away from the Medical Pathological Model that would view Deaf individuals as needing to be fixed in order to correct hearing and speaking deficiencies for the sole purpose of assimilating into mainstream society By contrast The Deaf Studies Encyclopedia seeks to carve out a new and critical perspective on Deaf Studies with the focus that the Deaf are not a people with a disability to be treated and cured medically but rather are members of a distinct cultural group with a distinct and vibrant community and way of being **Educational Audiology Handbook, Fourth Edition** Cheryl DeConde Johnson, Jane B.
