## **Christian Gnosis From Saint Paul To Meister Eckhart:**

Christian Gnosis Wolfgang Smith, 2023-11-30 Basing himself principally upon the teachings of Saint Paul and the Clementine Stromata Wolfgang Smith distinguishes the idea of gnosis in nascent Christianity from its Gnostic counterfeit After his initial considerations of the implications of authentic gnosis for cosmology intimately connected to his work in the philosophy of physics he finds the same considerations have bearing upon the theological notion of creatio ex nihilo as well This crucial recognition leads the author to consider alternative formulations within the Judeo Christian tradition from Christian Kabbalah to Jacob Boehme and Meister Eckhart What emerges are the outlines of a Trinitarian nondualism definitive of Christian gnosis *Non-dualism in Eckhart, Julian of Norwich and Traherne* James Charlton, 2012-10-25 The words me mine you yours can mislead us into feeling separate from other people This book is an exhilarating contribution to the spirituality of non duality or non separation Meister Eckhart Mother Julian of Norwich and Thomas Traherne are interpreted as theopoeists of the body soul who share a moderate non dualism Their work is brought within the ambit of non dual Hinduism Specifically their passion for unitive spiritual experience is linked to construals of both the Self and Awakening as enunciated by Advaita Vedanta Charlton draws on poetry theology and philosophy to perceive fresh connections A commonality of interest is proposed between the three Europeans and Ramana Maharshi The concept of non duality is basic to much of Asian religion On the other hand Christianity has usually ignored its own non dual roots This text contributes to a recovery in the West of the vital unifying power of non dual awareness and connectedness **Orthodox Mysticism and Asceticism** Constantinos Athanasopoulos, 2020-08-27 The scholarly contributions gathered together in this volume discuss themes related to the cultural social and ethical dimension of St Gregory Palamas works They relate his mystical philosophy and theology to contemporary debates in metaphysics philosophy of language ethics philosophy of culture political philosophy epistemology and philosophy of religion and theology among others The book considers a variety of topics of special interest to Christian theologians philosophers and art historians including church and state relations similarities and differences between Palamas contemporary phenomenologists and philosophers of language and hesychast influences on late Byzantine iconography **God at Play** Daniel Soars, 2025-07-01 The first comparative treatment of the topic of l l in Hindu and Christian traditions this volume explores what it means to consider divine and human action under the categories of play wit drama grace and compassion God at Play presents a theological exploration of the multifaceted motif of l l across diverse Hindu and Christian landscapes and its wide ranging connections to divine and human creativity Given its ubiquity in Hindu theologies and life forms l l offers a rich comparative framework for exploring certain ways of understanding divine and human action as expressed in Hindu and Christian sacred texts philosophical theology and ritual practices Though l l is often interpreted simply as play the essays in this volume reflect a far richer semantic and conceptual field ranging from spontaneity and gratuitousness through joy and humor to mercy and compassion By focusing on the

different contexts in which *l l* is found in Hindu traditions and resisting any uniform translation of the term the contributors to this volume avoid the risk of using predominantly western or Christian categories to understand the Hindu other The volume thus explores how *l l* functions in a variety of distinctive philosophical theological and devotional ways across Hindu traditions and listens for echoes in Christian understandings of the gratuitousness of the created order in relation to God God at Play is a genuine experiment in deep learning across traditions Each chapter reflects on what is learned by taking *l l* as the category of comparison and invites the reader to think about what these conversations add confirm or change in relation to earlier twentieth century scholarship on play not least in terms of what difference it might make to understand human life as an imitation and a participation in the divine life of a playful deity Reality Wynand De Beer,2019-09-24 What is reality

Most people in the modern world are ignorant of metaphysical realities not to mention the prevalence of semantic confusion and therefore Wynand de Beer aims to counter this ignorance and confusion He employs numerous insights from classical Greek philosophy and traditional Christian theology in order to discuss the various levels of reality ranging from the highest the divine to the lowest the material The author then deals with a range of philosophical and theological themes in the light of the preceding discussion These include well being and love time and eternity good and evil truth and knowledge and the survival of the soul beyond bodily death which is the only kind of immortality that human beings may attain A lengthy chapter also deals with the manifestation of higher levels of consciousness in religion mathematics and music In the later chapters of the book the author subjects salient aspects of the Western sociocultural phenomenon known as political correctness to critical scrutiny In the process these ideologically driven and media promoted isms are contrasted with both Hellenic and Christian thought and the penetrating writings of traditionalist and or anti modernist thinkers from different parts of the world

**Physics and Vertical Causation** Wolfgang Smith,2019-01-15 Wolfgang Smith accomplishes a re integration of the physical sciences into a worldview banished since the Enlightenment yet perfectly accommodative of every legitimate discovery of science This worldview proves to be precisely what is needed to resolve the quandary of the quantum paradox which has stymied theoretical physicists since 1927 *Ye Shall Know the Truth* Mateus Soares de Azevedo,2005-02-23

Podmore, Duane Williams, 2017-05-18 Exploration of the interface between mystical theology and continental philosophy is a defining feature of the current intellectual and even devotional climate But to what extent and in what depth are these disciplines actually speaking to one another or even speaking about the same phenomena This book draws together original contributions by leading and emerging international scholars delineating emerging debates in this growing and dynamic field of research and spanning mystical and philosophical traditions from the ancient to the medieval modern and contemporary At the heart of which lies Meister Eckhart perhaps the single most influential Christian mystic for modern times The book is organised around significant historical and contemporary figures who speak across the intersections of

philosophy and theology offering new insights into key interlocutors such as Pseudo Dionysius Augustine Isaac Luria Eckhart Hegel Heidegger Marion Kierkegaard Deleuze Laruelle and i ek Designed both to contribute to current trends in mystical theology and philosophy and elicit dialogue and debate from further afield this book speaks within an emerging space exploring the retrieval of the mystical within a post secular context      **The Human Brain and Its Universe: The brain and its mind** Hartwig Kuhlenbeck,1982      **Mystics Quarterly** ,1986      **Measuring the Sadness** Birgit Neuhold,2009
