**Library of Congress Subject Headings** Library of Congress, 2006      **Searching for Vedic India** Devamrita Swami, 2002 Deep in lost history did high civilizations and advanced knowledge thrive The ancient Vedic literatures of India describe a worldwide civilization that flourished at a time when modern historians insist that humans like us existed simply as hunter gatherers This Vedic civilization centered in India employed technologies based on a scientific understanding of the physical elements and forces we know today as well as more subtle conscious elements Devamrita Swami who has spent a lifetime in his own search for Vedic India takes us on a journey of intellectual discovery through the history of the remarkable Vedic civilization and its knowledge locked in the ancient literatures of India His wit and wisdom combine to make our search for Vedic India not only illuminating but entertaining He tells us not only the truths of Vedic India but how they are again coming to be Searching for Vedic India thus takes us not only into the past but into the future      **A Biblical Approach to Indian Traditions and Beliefs** Joshua Raj, 2008      **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2007      **Love Marriage** Dr Gautam DK, Naresh Gautam, Whether you are single and searching for your true love or in a committed relationship and looking to deepen your connection by marriage Love Marriage Astrology can guide you in taking the right decision To know about the various houses of the horoscope planets signs and the astrological combinations arising out of them which indicate that you can be connected to your soul mate in this lifetime It can help to understand if your love relationship can get the blessings of parents and you will get married to your lover It can guide you about your partner if he will ditch you or if you will dump him under the pressure of parents career or finances With detailed explanations of astrological combinations and examples this book can be perfect for anyone interested in exploring the powerful world of astrology and unlocking its secrets to a happy fulfilling love life      [An Old Bachelor's Thoughts on Love, Marriage, and Compatibility](#) David Webster, 2025-05-29 My Thoughts on Love Marriage and Compatibility It stands to reason that to get good practical advice you should look to someone who has been there and done it With all the qualified and experienced pastors councilors sociologists etc who have written on love and marriage why should a lifelong bachelor with no specific education on the subject bother to write on it First just to explain my views since I have difficulty doing so in person Also it is my observation that no one is so ignorant that a wise person cannot learn something of value from him So I wrote this for those friends who can glean wisdom from the most unpromising sources It has quite a different perspective than most so for what it is worth there may be something here that is not in scholarly works While divorce was multiplying marriage books and counseling by marriage experts were too almost all by married people That says inside the box thinking isn't doing enough It is easier to think outside the box when you live outside the box The main thrust of this booklet is this the more Christians love the Lord the more compatible they are period and the more they value the things of this world this life good or bad the more those things will come between them At the same time God will bless those

who's courtship and marriage model the union of Christ and His Church and not those that don't even when those attitudes good or bad were acquired as a cultural norm while growing up and not as a well thought out belief It's God's first purpose for marriage to symbolize and in believers demonstrate that blessed relationship so we all have a way to believe in what would otherwise be beyond comprehension It's very much a love story      **Library of Congress Subject Headings** Library of Congress. Office for Subject Cataloging Policy,1992      *The Fated Sky* Benson Bobrick,2005-11-08 In a horoscope he cast in 1647 for Charles I William Lilly a noted English astrologer made the following judgment Luna is with Antares a violent fixed star which is said to denote violent death and Mars is approaching Caput Algol which is said to denote beheading Two years later the king's head fell on the block Astrology must be right wrote the American astrologer Evangeline Adams a claimed descendant of President John Quincy Adams in a challenge to skeptics in 1929 There can be no appeal from the Infinite The Fated Sky explores both the history of astrology and the controversial subject of its influence in history It is the first serious book to fully engage astrology in this way Astrology is the oldest of the occult sciences It is also the origin of science itself Astronomy mathematics and other disciplines arose in part to make possible the calculations necessary in casting horoscopes For five thousand years from the ancient Near East to the modern world the influence of the stars has been viewed as shaping the course and destiny of human affairs According to recent polls at least 30 percent of the American public believes in astrology though as Bobrick reveals modern astrology is also utterly different from the doctrine of the stars that won the respect and allegiance of the greatest thinkers scientists and writers Greek Roman Egyptian Arab and Persian of an earlier day Statesmen popes and kings once embraced it and no less a figure than St Thomas Aquinas the medieval theologian thought it not incompatible with Christian faith There are some two hundred astrological allusions in Shakespeare's plays and not one of their astrological predictions goes unfulfilled The great astronomers of the scientific revolution Copernicus Tycho Brahe Kepler were adherents Isaac Newton's appetite for mathematics was first whetted by an astrological text In more recent times prominent figures such as Churchill de Gaulle and Reagan have consulted astrologers and sometimes heeded their advice Today universities as diverse as Oxford in England and the University of Zaragoza in Spain offer courses in the subject fulfilling Carl Jung's prediction decades ago that astrology would again become the subject of serious discourse Whether astrology actually has the powers that have been ascribed to it is of course open to debate But there is no doubt that it maintains an unshakeable hold on the human mind In *The Fated Sky* Benson Bobrick has written an absolutely captivating and comprehensive account of this engrossing subject and its enduring influence on history and the history of ideas      **Library of Congress Subject Headings: P-Z** Library of Congress. **Romantic Love in Cultural Contexts** Victor Karandashev,2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage

in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world's cultures Yet love displays in different ways because culture has an impact on people's conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature Romantic Love in Cultural Contexts delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations

Ancient Faiths And Modern Thomas Inman, 2019-11-26 In Ancient Faiths and Modern Thomas Inman embarks on a comprehensive exploration of the interconnectedness between ancient belief systems and contemporary religions This meticulously researched volume delves into the parallels among various faiths analyzing ancient mythologies rituals and spiritual ideologies that resonate in modern practices Inman's literary style merges scholarly rigor with accessible prose making complex ideas clear to a broad audience Set against the backdrop of 19th century religious thought this work reflects a growing curiosity about the origins of faith and its evolution over time providing a critical lens on what constitutes spirituality in both the past and the present Inman an accomplished physician and historian possessed a deep interest in the philosophical and psychological aspects of religion His background in medicine provided him with a unique perspective on the human experience prompting inquiries into the beliefs that shape societies Inman's critical approach and commitment to debunking superstitions are evident drawing from his intellectual environment marked by Enlightenment ideals and a quest

for empirical truth making him an apt conduit for this insightful examination of spiritual continuity Ancient Faiths and Modern is highly recommended for readers intrigued by the evolution of religion anthropology or even philosophy Inman s synthesis of historical context and modern implications invites readers to reassess their understanding of faith making it an essential read for anyone wishing to explore the rich tapestry of human belief and its impact on contemporary society

*Ancient Faiths and Modern* Thomas Inman,1876      **Paul and His Letters** John B. Polhill,1999 Except for Christ himself no figure has been more influential in the history of Christianity than the apostle Paul And yet his remarkable life remains shrouded in mystery In this probing new book John B Polhill scrapes away the myths about this great man and uncovers the truth of his life and thought Using Acts the Pauline epistles and reliable traditions from non canonical sources Polhill weaves together the remarkable story of Paul s transformation from persecutor to persecuted producing a dynamic account of his entire ministry By placing each of Paul s letters in its proper historical context Polhill brings new light to these foundation stones of the Christian faith He follows Paul from his early years in Tarsus and Jerusalem to his imprisonment and eventual martyrdom painting a detailed comprehensive portrait of Paul that will serve as an indispensable resource for students teachers and pastors alike      *Ancient Faiths and Modern: a Dissertation Upon Worships, Legends and Divinities in Central and Western Asia, Europe, and Elsewhere, Before the Christian Era.
