Crying Angels Sarah V. Tinsley, 2018-10 Most of us can probably think of a spiritual experience in our life that made a permanent profound impression God reveals His infinite love through our personal experiences Too often these stories of

spiritual reality are never shared with others When I began praying for spiritual experiences when my parents were very ill I was blessed with a visit from crying angels The first story in my book *Crying Angels* inspired the title of my book I felt I should record and share my spiritual stories and the stories I had heard from others I realized that both the teller and the listener's faith in God increases when stories are shared Our sharing creates a ripple effect of numerous blessings My hope is that the stories in this book will bless your soul and will help you not miss any of the miracles God places before you Sarah V Tinsley

Veteran Teacher Resilience Lee Brantley Shields, Carol A. Mullen, 2020-07-30 This book explores why veteran teachers choose to remain in the classroom making teaching their life's career The authors felt compelled to interview veteran teachers to learn about their experiences how they make meaning of their classrooms and schools and in particular what can be known about the adversities they face and their resilience Factors individual and contextual are uncovered that influence veteran teacher's resiliency and adaptation from veteran teachers' perspectives and the literature Induction programs professional development and mentoring are also examined for their importance to the interviews and education Features of this book include Focuses on veteran teacher resilience and why veteran teachers choose to remain in the classroom and teaching profession Uses an interview method involving veteran teachers that illuminates issues of resiliency and retention from their perspective Highlights 15 narrative accounts of veteran teachers tailored to their perceptions experiences and strategies for navigating barriers and overcoming challenge Combines conceptual frameworks research results interventions and strategies Connects implications of the study and suggestions for future research to practice and policy This book is for researchers interested in teacher resilience particularly veteran teacher resilience and the study and development of it as well as practitioners drawn to the same topic with applicability to their fields Anyone interested in resilience particularly within demanding professional contexts and stressful situations should find value The focus on teacher resilience is original and it is an important aspect of why teachers might choose to stay in the profession Teacher resilience is understudied and should provide useful knowledge to policymakers and education leaders on how to improve working conditions and increase efficacy So much ink is spilled extolling why teachers exit the profession there is a dearth of research on why they stay which in my opinion is even more important than why they leave This book makes an important contribution to the literature and will hopefully inform policy making and inspire others to conduct research on the subject Christopher H Tienken Associate Professor Dept of Education Leadership Management and Policy Seton Hall University South Orange NJ USA The topic is original It seems there is much literature on new teachers and why they leave but little on veteran teachers and why they stay The topic and the reporting of the findings with suggestions for practices to be implemented in university programs as well as in K 12 schools is very useful The format this book follows is actually a strong one for other researchers and students in doctoral programs Sandra Harris Professor Emerita Educational Leadership Lamar University Beaumont Texas USA
