## **Creative Authenticity 16 Principles To Clarify And Deepen Your Artistic Vision:**

**Creative Authenticity** Ian Roberts, 2004 To those engaged in making art an authentic voice is the most crucial yet most difficult ability to come by Why does so much conspire to hide what is ultimately the closest simplest thing of all Creative Authenticity outlines 16 principles that will help you peel back the fears misconceptions shoulds and confusion around courageous creative expression You ll discover you are more than creative enough talent has little to do with your success the van Gogh syndrome is one of the most destructive myths of what it takes to creative the dance of avoidance upon arriving in the studio is inevitable learn to see through it and begin the necessity of finding a truthful relationship with your work so it feeds you not torments you Publisher description *Mastering Composition* Ian Roberts, 2007-11-29 Create Better Compositions by Design The path to better painting begins with Mastering Composition This effective guide blends clear visual instruction with 5 step by step demonstrations to show you how to plan and paint your best work yet Composition is the key and here you ll learn to design paintings with new skill and confidence It all begins with the armature or structure of the picture plane Every great painting has one and you ll see through several famous examples exactly how the Old Masters used armatures to create movement narrative harmony and fluidity Based on these examples you ll practice what you ve learned following a series of hands on demonstrations Once you understand the basic principles of design you ll be amazed at how quickly and effectively your compositions come together Soon you will be painting more boldly and confidently than ever before with less reworking and overworking Whether you re a beginner looking for basic instruction or a more advanced painter troubleshooting a specific problem the proven methods in this book will work for you Ideal for all mediums Mastering Composition gives you the knowledge you need to create powerful paintings out of every subject **Bloom** Janice Mason Steeves, 2023-10-12 BLOOM is a call to action for those individuals not only in a later phase of life but at any age who feel the call to pursue a creative path in their lives The pressures of the modern world force many into utilitarian careers early on Artistic impulses lie unfulfilled dormant For some at a certain point there comes an ache in the bones a deep longing for creative expression a simultaneous sense of emptiness and overflowing feeling This was the case for the author Janice Mason Steeves who left a career in psychology to pursue art in her forties She went back to school graduated from the Ontario College of Art and Design and went on to develop an international art career an art consulting practice and a highly sought after travel workshop business Weaving together insights from her own art experience with the stories of 138 artists over the age of sixty whom Janice surveyed for the book Bloom offers guidance inspiration and support for the often difficult and misunderstood desire to change trajectory and take up a path of creativity and meaning Mason Steeves then takes these observations a step further suggesting that not only is it possible to come to art later in life and be successful as an artist but that the distillation of life experience and self knowledge gleaned from the artist s path may enable older artists to step into an even larger role that of a community elder The elder role acquired in this case through art but existing beyond art is
