A Trainer's Guide to the Creative Curriculum for Family Child Care Diane Trister Dodge, Laura Jean Colker, 1991
This trainer's guide presents two approaches to working with providers who are implementing The Creative Curriculum for Family Child Care. The first approach involves periodic workshops and sharing sessions for providers. The second approach involves individualized support offered by the trainer in each provider's home. In Chapter I Planning Effective Training Sessions a review of knowledge about adult learners provides a basis for planning training. The chapter offers practical suggestions on logistics training techniques communication with providers and assessment of training. Chapter II Workshops on the Creative Curriculum includes detailed workshop outlines for each major activity area in the curriculum. Chapters III and IV focus on the process of working with providers in their homes giving particular attention to preparation of the environment and implementation of activities. These chapters explain what should happen in family child care homes where the creative curriculum is used and indicate the importance of these happenings. These chapters also deal with typical problems that providers experience and strategies for helping providers address such problems. An appendix lists resources that supplement the curriculum and professional organizations providers can join. *RH The Creative Curriculum for Infants & Toddlers* Amy Laura Dombro, Laura Jean Colker, Diane Trister Dodge, 1999 Framework for planning and implementing a developmentally appropriate program Developing Learning Modules for Child Development Associate Training Dennis Ackley, 1975 **Resources for Early Childhood Training** Michele Porzel, 1987 *Resources in Education*, 1998-07 Curriculum in Early Childhood Education Jennifer J. Children and childhood across the world have broadly been construed in terms of a golden age that is synonymous with innocence freedom joy play and the likes It is the time when one hardly shoulders any kind of responsibility or obligations But it is also true that children are vulnerable especially when very young The fact that children are vulnerable they need to be cared for and protected from the harshness of the world outside and around It is believed that childhood is that period during which children are subjected to a set of rules and regulations unique to them and one that does not apply to members of other social categories
