Federal Register ,2013-12 100 Million Unnecessary Returns Michael J. Graetz,2010-01-01 To most Americans the United States tax code has become a vast and confounding puzzle In 1940 the instructions to the form 1040 were about four pages long Today they have ballooned to more than a hundred pages and the form itself contains more than ten schedules and twenty worksheets The complete tax code totals about 2 8 million words about four times the length of War and Peace In this intriguing book Michael Graetz maintains that our tax code has become a tangle of loopholes paperwork and inconsistencies a massive social program that fails tests of simplicity and fairness More important our tax system has failed to keep pace with the changing economy creating burdens and wastes of resources that weigh our nation down Graetz offers a solution Imagine a world in which most Americans pay no income tax at all and those who do enjoy a far simpler tax

process all this without decreasing government revenues or removing key incentives for employer sponsored health care plans and pensions As Graetz adeptly and clearly describes this world is within our grasp **The Bank Man** ,1907
