Technologies Michael Leitner, 2013-01-19 Recent years in North America have seen a rapid development in the area of crime analysis and mapping using Geographic Information Systems GIS technology In 1996 the US National Institute of Justice NIJ established the crime mapping research center CMRC to promote research evaluation development and dissemination of GIS technology The long term goal is to develop a fully functional Crime Analysis System CAS with standardized data collection and reporting mechanisms tools for spatial and temporal analysis visualization of data and much more Among the drawbacks of current crime analysis systems is their lack of tools for spatial analysis For this reason spatial analysts should research which current analysis techniques or variations of such techniques that have been already successfully applied to other areas e g epidemiology location allocation analysis etc can also be employed to the spatial analysis of crime data This book presents a few of those cases

The Technology of Policing Peter K. Manning, 2008-03-01 With the rise of surveillance technology in the last decade police departments now have an array of sophisticated tools for tracking monitoring even predicting crime patterns In particular crime mapping a technique used by the police to monitor crime by the neighborhoods in their geographic regions has become a regular and relied upon feature of policing Many claim that these technological developments played a role in the crime drop of the 1990s and yet no study of these techniques and their relationship to everyday police work has been made available Noted scholar Peter K Manning spent six years observing three American police departments and two British constabularies in order to determine what effects these kinds of analytic tools have had on modern police management and practices While modern technology allows the police to combat crime in sophisticated detail oriented ways Manning discovers that police strategies and tactics have not been altogether transformed as perhaps would be expected In The Technology of Policing Manning untangles the varying kinds of complex crime control rhetoric that underlie much of today's police department discussion and management and provides valuable insight into which are the most effective and which may be harmful in successfully tracking criminal behavior The Technology of Policing offers a new understanding of the changing world of police departments and information technology's significant and undeniable influence on crime management Fundamentals of Crime Mapping: Principles and Practice Rebecca Paynich, Bryan
