research around the processes and habits of successful creative individuals helping you discover how you can build creativity into your programming practice This fascinating new book teaches practical techniques that apply those principles to software development *René Girard and Creative Mimesis* Vern Neufeld Redekop, Thomas Ryba, 2013-11-21 For half a century Ren Girard's theories of mimetic desire and scapegoating have captivated the imagination of thinkers and doers in many fields as an incisive look into the human condition particularly the roots of violence In a 1993 interview with Rebecca Adams he highlighted the positive dimensions of mimetic phenomena without expanding on what they might be Now two decades later this groundbreaking book systematically explores the positive side of mimetic theory in the context of the multifaceted world of creativity Several authors build on Adams' insight that loving mimesis can be understood as desiring the subjectivity of the other particularly when the other may be young or wounded With highly nuanced arguments authors show how mimetic theory can be used to address child and adult development including the growth of consciousness and a capacity to handle complexity Mimetic theory is brought to bear on big questions about creativity in nature evolutionary development originality and religious intrusion into politics **Unfinished Journeys** Ken McGregor, 2006 Selected artists and their families were asked to travel to destinations of their choice and to create new artworks as a result of their experiences Models of the Self Shaun Gallagher, Jonathan Shear, 1999 A comprehensive reader on the problem of the self as seen from the perspectives of philosophy development psychology robotics cognitive neuroscience psychopathology semiotics phenomenology and contemplative studies all focused on a keynote paper **Assemblage: a New Dimension in Creative Teaching in Action** Victor D'Amico, Arlette Buchman, 1972 A guide to art teaching in action Light for a Cold Land Peter Larisey, 1993-01-10 Lawren Stewart Harris' artistic career began in the first decade of our century Well known for the nationalist inspired landscapes that he painted between 1908 and 1932 Harris turned resolutely in 1934 to the painting of abstractions He continued to create works that reflected his own modernist and mystical developments until the end of his life Canadians praise Harris' landscapes and admire him as a planner of innovative and heroic sounding sketching trips into the North He is also recognized as the chief organizer of the Group of Seven A long list of younger artists he considered creative greatly benefited from Harris' encouragement and often generous practical help many of them have been interviewed for this book In the lives of some Canadians Harris still functions as a guru-like guide a role he was quite content to take on during his own lifetime because of the spiritual content of his art and aesthetic writings and the example of his optimistic vigorous and apparently untroubled life But Harris was not an untroubled life and *Light for a Cold Land* examines his personal crises and difficulties some of which caused important changes in his art The book also uncovers the painting styles artistic tensions and cultural dynamics of the German milieu in which Harris received his only formal art education His student years in Berlin profoundly influenced not only his art but also his artistic politics and his philosophy It is ironic that in the art of this most articulate of Canadian nationalist painters there are extensive German influences *Light for a Cold Land* is

the first art historical study of Lawren Harris that attempts to explore his life and all aspects of his career It is based on extensive work in archives libraries public art galleries and private collections in Canada as well as research in Germany and interviews with members of Harris family and many of his friends acquaintances colleagues and critics **Wallace Stevens across the Atlantic** B. Betts, 1978 *Autonomy* David Eden, 2016-04-08 *Autonomy* Capital Class and Politics explores and critiques one of the most dynamic terrains of political theory sometimes referred to as Autonomist Marxism or post Operaismo This theory shot to prominence with the publication of *Empire* by Hardt and Negri and has been associated with cutting edge developments in political and cultural practice yet there exists no work that critically examines it in its contemporary breadth Taking three divergent manifestations of Autonomist Marxism found in the works of Antonio Negri

and Paulo Virno the Midnight Notes Collective and John Holloway David Eden examines how each approach questions the nature of class and contemporary capitalism and how they extrapolate politics Not only is such juxtaposition both fruitful and unprecedented but Eden then constructs critiques of each approach and draws out deeper common concerns Suggesting a novel rethinking of emancipatory praxis this book provides a much needed insight into the current tensions and clashes within society and politics
