Creative Real Estate Investing Strategies And Tips:

Creative Real Estate Investing Strategies and Tips Omar Johnson, 2012-12-19 If you are a beginning or a seasoned real estate investor and you're looking to jumpstart or catapult your real estate investing business to a higher level then Omar Johnson's **Creative Real Estate Investing Strategies and Tips** is the perfect book for you because it reveals countless creative real estate investing strategies that you can utilize and immediately profit from. Some of the topics that are covered are Land Trusts, Private Lending, Wholesaling, Short Sales, Preforeclosure, Non-Conventional Real Estate Financing, Real Estate Marketing, Creating A Buyer's List, Motivated Sellers, Abandoned Properties and much much more. **Real Estate Investing Strategies** Jim Pellerin, The mechanics of Real Estate Investing is simple. Buy a house and do something with it. Fix it and rent it or just sell it. Sounds simple doesn't it? Yet only a small percentage of us have enough courage to go out and take advantage of the opportunities that are available to us. Real Estate Investing can be more promising than stocks, bonds and various other securities because of the higher rates of return. In this book I show you how to get started by describing the different types of skills you need by showing you how to take control of your personal and financial situation and by helping you decide what type of real estate investing you want to get involved in. I also show you how to find properties, how to analyze them and how to make an offer that makes sense. And finally I describe what you need to do to manage your investment and ultimately how to sell your investment for the most profit. I have been involved in real estate investing for over 20 years. I have yet to find a book that focuses on the investor and the overall process. Sure there are lots of books on fix and flips, buy rent and hold, rent to own etc. However I haven't found any good books on how to really get started in the real estate investing process from a practical viewpoint. The technical aspects of real estate investing are really quite easy. But if it's so easy then why isn't everyone doing it? This book is for people who are serious about getting started in real estate investing and who want to join the 5% of those who actually take action and invest. This book provides a strategic approach with the tried and tested methods and principles that have helped others make millions in real estate.
