Creatures Born of War Bruce Taneski, 2017-02-17 *Creatures Born of War* by Bruce Wm Taneski Posted on December 26 2016 VVA web site under Books in Review II Bruce Wm Taneski's *Creatures Born of War A Novel About the World Wars* is a novel about World Wars I and II and the role of shell shock and battle fatigue In the front of the book we are told that coming soon is a novel about the conflict in Korea and Vietnam The author's credentials are clear he's a U S Army Vietnam War veteran who has experienced first hand the trauma of war and PTSD having served in Recon units in the 199th Light Infantry Brigade and the 5th Infantry Division That is not in this book In tracing as Taneski puts it the PTSD experience of fictional soldiers like Jimmy Costigan and Mike McMullen in WWI he creates a realistic picture of young men growing up in the early 1900s Then he shows us their children serving in World War II This is the most exciting part of the novel due to the author's skill at showing men at war The Bataan Death March figures prominently in this fine novel We relive the agony of 675 American troops as they take five days to die The Author I collect antiwar quotations and the one I garnered from this book is my favorite You know the assholes that allowed the first war to happen are the same assholes that set up the one we are in now I think we will see more war in our lives More young men will be sent away and come home screwed up I couldn't have said it better This is a massive book It is not a Vietnam War novel but it prepares the way for the sequel The book shows that war any war is good for absolutely nothing There it is David Willson Vietnam Veterans of America Books in Review II

British Children's Fiction in the Second World War Owen Dudley Edwards, 2007-08-01 What children read in the Second World War had an immense effect on how they came of age as they faced the new world This time was unique for British children parental controls were often relaxed if not absent and the radio and reading assumed greater significance for most children than they had in the more structured past or were to do in the more crowded future Owen Dudley Edwards discusses reading children's radio comics films and book related play activity in relation to value systems the child's perspective versus the adult's perspective the development of sophistication retention and loss of pre war attitudes and their post war fate British literature is placed in a wider context through a consideration of what British writing reached the USA and vice versa and also through an exploration of wartime Europe as it was shown to British children Questions of leadership

authority individualism community conformity urban rural division ageism class race and gender awareness are explored In this incredibly broad ranging book covering over 100 writers Owen Dudley Edwards looks at the literary inheritance when the war broke out and asks whether children s literary diet was altered in the war temporarily or permanently Concerned with the effects of the war as a whole on what children could read during the war and what they made of it he reveals the implications of this for the world they would come to inhabit
