Creatures Born War Battle Fatigue:

An Odyssey with Animals Adrian R. Morrison, 2009-06-25 The relationship between animals and humans is more complex today than ever before In addition to the animals that have served as household pets and the farm animals that have provided labor and food countless monkeys rabbits rats and cats have enabled modern scientists to treat and cure humanity's most devastating illnesses This aspect of animal human interaction has engendered a bitter enmity between animal rights activists and the biomedical researchers whose work depends on the use and oftentimes the killing of laboratory animals In *An Odyssey with Animals* veterinarian and sleep researcher Adrian Morrison argues that humane animal use in biomedical research is an indispensable tool of medical science and that efforts to halt such use constitute a grave threat to human health and wellbeing The target of repeated acts of intimidation by anonymous animal rights activists because of his own research Morrison is himself an animal advocate and this volume is the culmination of his years spent negotiating the treacherous divide between a legitimate concern for animals and the importance of biomedical research Drawing on the disciplines of philosophy history biology and animal behavior Morrison crafts a multi faceted argument in favor of using animals humanely in research the center of which is his staunch belief that human interests must be the primary concern of science and society Along the way Morrison delves into other human uses of animals in domains such as agriculture hunting and education examining each use along with its philosophical moral and ecological implications The result is a thought provoking intelligent and fair minded discussion of a charged subject of the past and present of animals relationships with humans and how and why we should be able to use them as we do *War, Science and Terrorism* Dr J Richardson, 2012-12-06 Describes the application of research to the evolution of weapons It shows how natural engineering information and environmental sciences are exploited how even social science is applied to recruitment battlefield and logistical management and careful preparation of terroristic acts [Valor of Many Stripes](#) Scott Baron, 2019-02-04 The award of a military decoration does not define valor it only recognizes it Many acts of notable courage and self sacrifice occur on the battlefield but are often obscured in the fog of battle or lost to history unrecognized and unheralded The largely overlooked men and women in this volume did incredible things in dire circumstances Although in some cases decorations were awarded including several Medals of Honor their stories remain unknown **War, Science, and Terrorism** Jacques Richardson, 2002 Describes the application of research to the evolution of weapons It shows how natural engineering information and environmental sciences are exploited how even social science is applied to recruitment battlefield and logistical management and careful preparation of terroristic acts **Creatures Born of War: A Novel about the World Wars, Shell Shock & Battle Fatigue** Bruce Wm Taneski, 2015-11-27 In World War I it was Shell Shock Then they called it Battle Fatigue in World War II Today it is Post Traumatic Stress Disorder or PTSD Irish Catholic families of New York City are sending their sons to France to fight in WWI They will not return as they were Changed and broken men will return

instead The creature that lives within them will affect not only their family and friends it will affect the next generation serving in WWII as well This is the story of their creatures You may have a creature of your own Find out why you do

Animals Go to War Connie Goldsmith,2018-08-01 In the twenty first century military marine mammals detect lost equipment and underwater mines Large rats are trained to find land mines in more than 80 countries Military working dogs search for explosive devices and other weapons and are trained to take down enemy combatants In earlier centuries military fighters rode horses into battle relied on elephants to haul supplies and trained pigeons to carry messages Even cats goats and chickens have served in wartime as mascots Learn about the history of animals in warfare the functions they serve and how they are trained as well as the psychology that makes animals such good partners in warfare

Dismembering the Male Joanna Bourke,1996-05-15 Some historians contend that femininity was disrupted constructed and reconstructed during World War I but what happened to masculinity Using the evidence of letters diaries and oral histories of members of the military and of civilians as well as contemporary photographs and government propoganda Dismembering the Male explores the impact of the First World War on the male body Each chapter explores a different facet of the war and masculinity in depth Joanna Bourke discovers that those who were dismembered and disabled by the war were not viewed as passive or weak like their civilian counterparts but were the focus of much government and public sentiment Those suffering from disease were viewed differently often finding themselves accused of malingering Joanna Bourke argues convincingly that military experiences led to a greater sharing of gender identities between men of different classes and ages Dismembering the Male concludes that ultimately attempts to reconstruct a new type of masculinity failed as the threat of another war and with it the sacrifice of a new generation of men intensified

The Legacy of the Great War Jay Winter, 2009-10-26 In late 2007 and early 2008 world renowned historians gathered in Kansas City for a series of public forums on World War I Each of the five events focused on a particular topic and featured spirited dialogue between its prominent participants In spontaneous exchanges the eminent scholars probed each other's arguments learned from each other and provided insights not just into history but also into the way scholars think about their subject alongside and at times in conflict with their colleagues Representing a fourth generation of writers on the Great War and a transnational rather than an international approach prominent historians Niall Ferguson and Paul Kennedy Holger Afflerbach and Gary Sheffield John Horne and Len Smith John Milton Cooper and Margaret MacMillan and Jay Winter and Robert Wohl brought to the proceedings an exciting clash of ideas The forums addressed topics about the Great War that have long fascinated both scholars and the educated public the origins of the war and the question of who was responsible for the escalation of the July Crisis the nature of generalship and military command seen here from the perspectives of a German and a British scholar the private soldiers' experiences of combat revealing their strategies of survival and negotiation the peace making process and the overwhelming pressures under which statesmen worked and the long term cultural consequences of the war showing that the Great War was great not merely because of its magnitude but also because of its revolutionary effects These topics continue to reverberate and in addition to shedding new

light on the subjects these forums constitute a glimpse at how historical writing happens American society did not suffer the consequences of the Great War that virtually all European countries knew a lack of perspective that the National World War I Museum seeks to correct This book celebrates that effort helping readers feel the excitement and the moral seriousness of historical scholarship in this field and drawing more Americans into considering how their own history is part of this story

The Review of the News ,1979-12 Includes a section called Correction please Show Me All Your Scars Lee

Gutkind,2016-07-17 Every year one in four American adults suffers from a diagnosable mental health disorder In these true stories writers and their loved ones struggle as their worlds are upended What do you do when your father kills himself or your mother is committed to a psych ward or your daughter starts hearing voices telling her to harm herself or when you yourself hear such voices Addressing bipolar disorder OCD trichillomania self harm PTSD and other diagnoses these stories vividly depict the difficulties and sorrows and sometimes too the unexpected and surprising rewards of living with mental illness

Post Traumatic Stress Disorder (PTSD) Awareness Ann Brown,2017-07-26 How often have you heard the term PTSD or Post Traumatic Stress Disorder We know that it exists but do you really know what it means Many of us suffer from PTSD and yet have no idea what it is how to recognize it or it s triggers and what s worse we have no idea what to do about it Many of us suffer from it and don t realize it until we are embroiled into fits of unexpected anger depression and even worse suicide or suicidal tenancies Not to mention domestic violence divorces and child abuse that are direct side effects of severe PTSD PTSD Shell Shock or nay other war related description that has been attached to it has existed since war began and yet little has been done to educate those who suffer the effects or secondary effects of it for those most affected by it This book will educate you on the terms causes signs and symptoms triggers or possible outcome of untreated Post Traumatic Stress PTSD is not a death sentence nor should it be feared at one however knowledge is key to helping all of those who suffer the consequences of PTSD

War Inconsistent with the Religion of Jesus Christ David Low Dodge,2019-12-17 In War Inconsistent with the Religion of Jesus Christ David Low Dodge presents a provocative critique of the moral implications of warfare in light of Christian teachings Written in the early 19th century the book employs a clear and persuasive literary style weaving together theological insights historical examples and philosophical reasoning Dodge articulates a vision of Christianity that opposes violence arguing that the essence of Jesus message stands in stark contrast to the principles that underlie armed conflict This work emerges from a broader context of peace activism prevalent during the period particularly amid the rising tide of pacifism in response to the geopolitical turmoil of the time David Low Dodge was a prominent American clergyman abolitionist and advocate for peace whose convictions

profoundly shaped his writings His extensive theological education and pastoral experiences informed his understanding of Christian doctrine prompting him to confront the implications of faith in a world riddled with violence His own involvement with the social reform movements of his era particularly in advocating for non violence reflects his commitment to promoting a harmonious society rooted in Christian love and compassion Readers who seek to explore the intersections of faith morality and social justice will find War Inconsistent with the Religion of Jesus Christ an essential and enlightening text Dodge s compelling arguments invite readers to reflect deeply on the moral responsibilities of Christians especially in the context of conflict and war This work is particularly relevant today resonating with contemporary debates surrounding pacifism humanitarian intervention and the ethical dilemmas of modern warfare **The Great War** Herbert Wrigley Wilson, Sir John Alexander Hammerton, 1917 *Beyond Combat* Heather Marie Stur, 2011-09-26 *Beyond Combat* investigates how the Vietnam War both reinforced and challenged the gender roles that were key components of American Cold War ideology Refocusing attention onto women and gender paints a more complex and accurate picture of the war s far reaching impact beyond the battlefields Encounters between Americans and Vietnamese were shaped by a cluster of intertwined images used to make sense of and justify American intervention and use of force in Vietnam These images included the girl next door a wholesome reminder of why the United States was committed to defeating Communism and the treacherous and mysterious dragon lady who served as a metaphor for Vietnamese women and South Vietnam Heather Stur also examines the ways in which ideas about masculinity shaped the American GI experience in Vietnam and ultimately how some American men and women returned from Vietnam to challenge homefront gender norms *Beyond The Moonlight* Grace Cooper, [Dancing in the Glory of Monsters](#) Jason Stearns, 2012-03-27 A meticulously researched and comprehensive Financial Times history of the devastating war in the heart of Africa s Congo with first hand accounts of the continent s worst conflict in modern times At the heart of Africa is the Congo a country the size of Western Europe bordering nine other nations that since 1996 has been wracked by a brutal war in which millions have died In *Dancing in the Glory of Monsters* renowned political activist and researcher Jason K Stearns has written a compelling and deeply reported narrative of how Congo became a failed state that collapsed into a war of retaliatory massacres Stearns brilliantly describes the key perpetrators many of whom he met personally and highlights the nature of the political system that brought these people to power as well as the moral decisions with which the war confronted them Now updated with a new introduction *Dancing in the Glory of Monsters* tells the full story of Africa s Great War
