The Metaphysical World of Isaac Newton John Chambers, 2018-02-13 Newton's heretical yet incisive writings on theology, spirituality, alchemy, and prophecy written in secret alongside his *Principia Mathematica* Shows how Newton's brilliance extended far beyond math and science into alchemy, spirituality, prophecy, and the search for lost continents such as Atlantis Explains how he was seeking to rediscover the one true religion that existed prior to the Flood of Noah when science and spirituality were one Examines Newton's alternate timeline of prehistory and his study of prophecy through the Book of Revelations including his prediction of Apocalypse in the year 2060 Isaac Newton 1643-1727 is still regarded by the world as the greatest scientist who ever lived He invented calculus, discovered the binomial theorem, explained the rainbow, built the first reflecting telescope, and explained the force of gravity In his famous masterpiece *Principia Mathematica* he described the mechanics of the physical universe with unimagined precision, proving the cosmos was put together according to laws The perfection of these laws implied a perfect legislator To Newton they were proof that God existed At the same time Newton was writing *Principia Mathematica* he was writing a twin volume that he might have called had it been completed *Principia Theologia* Principles of Theology This other masterpiece of Newton kept secret because of the heresies it contained consists of thousands of essays providing incisive answers to the spiritual questions that have plagued mankind through the ages Examining Newton's secret writings John Chambers shows how his brilliance extended into alchemy, spirituality, the search for lost continents such as Atlantis, and a quest to uncover the corrupted texts that were rife in the Bibles of his time Although he was a devout Christian Newton's work on the Bible was focused not on restoring the original Jewish and Christian texts but on rediscovering the one true religion that existed prior to the Flood of Noah when science and spirituality were one The author shows that a single thread runs through Newton's metaphysical explorations He is attempting to chart the descent of man's soul from perfection to the present day The author also examines Newton's alternate timeline of ancient history and his study of prophecy through the Book of Revelations including his prediction of an Apocalypse in the year 2060 followed by a radically transformed world He shows that Newton's great hope was that these writings would provide a moral compass for humanity as it embarked upon the great enterprise that became our technological world

Contending for the Faith E. Daisy Rodriguez, 2014-10-10 Contending for the Faith invites readers to explore two millennia of church history and to learn how God works through the church's ministry to spread the gospel of God's kingdom and in the end to defeat the forces working to oppose him E Daisy Rodriguez combines dramatic retellings of the biblical narrative direct citations from the Scriptures and reflections that connect the lives and ministries of contemporary Christians with God's work in the church throughout its history Various chapters treat topics like God's commission the church Christ's gifts historical critique prophetic vision and assurance of God's victory The tone is approachable and energetic blending together explanations of the biblical background and the historical record with sections that speak to the contemporary mission of the church and its future mission Like a lighthouse the church has and will continue to light the way for a world lost in the darkness If you have asked yourself what God's plan is for his people and wondered how to interpret the threats made by forces opposed to God and the church then Contending for the Faith will give you both a helpful introduction to the sweep of history from the church's birth to Christ's return in power God's people can be encouraged and trust that God in the end will carry out his plans for the church the body of Christ

Abel Mordechai Bibliowicz,2019-03-01 I am in fundamental agreement with Bibliowicz s thesis that the anti Jewish polemic in
the New Testament reflects debates between Jewish and Gentile followers of Jesus not a polemic between Christians and
Jews and with the implications which he has drawn for Christian theology May this book find a wide readership among
people devoted to the cause of the healing of memories between Jews and Christians Peter C Phan Professor Chair of
Catholic Social Thought Georgetown University President of the Catholic Theological Society of America Standing on a
brilliant and insightful reconstruction of Paul and on a quite shocking but perhaps compelling reading of Mark the author
offers a number of original and in some cases quite compelling theoretical reconstructions of the context and purposes of
early Christian texts a work of sublime moral passion David P Gushee Distinguished University Professor of Christian Ethics

Kingdom Ethics Following Jesus in Contemporary Context An intrepid excursion into the Christian discourse The quest of an
intellectual a humanist Interesting and in fact overwhelming A timely and honest engagement of the Christian texts authors
and scholars by a Jewish intellectual Burton L Mack Professor of Early Christianity Claremont School of Theology California
author of A Myth of Innocence Mark and Christian Origins There is great merit to Bibliowicz s approach I highly recommend
this book for anyone interested in the Jewish Christian dialogue Scholars may disagree with a number of Bibliowicz
conclusions as I do with his interpretation of the Epistle to the Hebrews But even in disagreeing scholars in the field of
Jewish Christian studies will learn new ways of challenging and thinking about old presumptions Eugene J Fisher

formative scholarly contributions of the decade for both biblical and historical scholars Michael Thompson Professor
