was based largely upon the city's capacity to put itself on display. Some of the authors reassess the famed centrality of Paris from the vantage point of our globalized twenty-first century by acknowledging its entanglements with South Africa, Turkey, Japan, and the United States. The volume equally studies a broader range of media than Benjamin did himself, from modernist painting and printmaking, photography and illustration to urban planning. The essays conclude that Paris did in many ways function as the epicenter of modernity's international reach, especially in the years from 1850 to 1900, but did so only as a consequence of the idiosyncratic force of its mythic image. Above all, the essays affirm that the study of late nineteenth-century Paris still requires nimble and innovative approaches commensurate with its legend and global aura. **Michigan's**

Strychnine Saint Tobin T. Buhk, 2014-03-04. A historically accurate picture of the characters involved in the complicated frontier-era poisoning investigation. MLive.com. The spring of 1903 proved disastrous for the Murphy family. On April 22, the infant Ruth Murphy died in her crib. Within an hour, her mother Gertrude experienced a violent spasm before she too died. Ten days later, John Murphy followed his wife and child to the grave after suffering from a crippling convulsion. While neighbors whispered about a curse and physicians feared a contagious disease, Kalkaska County sheriff John W. Creighton and prosecuting attorney Ernest C. Smith searched for answers. As they probed deeper into the suspicious deaths, they uncovered a wicked web of intrigue. And at the center stood a widow in a black taffeta dress. Includes photos. [Toxicology of Cyanides](#)
