In the center, there is a black silhouette of a person seen from behind, with their arms outstretched to the sides, palms facing forward. The person's head is slightly turned to the right.

Parricide and Violence against

Parents Marianna Muravyeva, Phillip Shon, Raisa Maria Toivo, 2020-12-30 Parricide and Violence Against Parents takes a historical and criminological approach to the research on parricide and violence against parents placing the research in the context of social development from the 1500s to contemporary society and giving a global overview and comparison The book examines parricide and violence against parents as historically and culturally sensitive phenomena It offers evidence on a seemingly rare subject from different eras areas and cultures and then uses the cross disciplinary data to produce a new systematic insight for the reader Case studies shift the discussion from the contemporary focus on adolescent to parent abuse to examining the sources of conflict during life cycles of parents and their offspring A historical approach illuminates the variations in conflicts between parents and their offspring that are shaped by the life stages of the victims and offenders themselves across time The book argues that parental authority has been marked by property ownership and tax paying responsibilities throughout history The continued possession of property resulted in power the reluctance to part with it becoming a notable source of conflict across generations within families Parental authority was protected by means of heavy penalties and punishments and didactic teachings in almost every society at every stage of historical development It was also challenged constantly by children as a part of their coming into adulthood The abuse of parents has often been connected to situations where adult children were prevented from gaining the amount of independence appropriate to their position in life This led to disputes over authority and the legitimate grounds for that authority Offering an insight into complicated and interconnected histories of generational conflicts and how they affect modern families in different parts of the world this book will be of great interest to students and scholars of criminology history of crime history of the family family violence homicide studies gender studies history of emotions political violence and social work **Investigating Sexual Assault**

immagini di senso comune e che risente di rappresentazioni sociali diffuse profondamente legate alla prospettiva istituzionale. Gli studi sulle mafie assistono a una crescita costante testimoniata dalla vivacità del confronto scientifico a livello internazionale dall'avvio di progetti di ricerca interdisciplinari e dall'emergere di centri di ricerca specializzati fuori e dentro l'accademia. Ma a fronte di una sempre maggiore rilevanza del dibattito la riflessione riguardante gli strumenti, il metodo e le tecniche utilizzati non ha ricevuto un'attenzione altrettanto sistematica. A partire dalla ricerca di studiosi provenienti da diversi ambiti disciplinari dalla sociologia al diritto dall'antropologia alla storia dalla geografia alla criminologia questo volume si pone come strumento utile per coloro che non solo vogliono interrogarsi su tecniche di ricerca, fonti e approcci disciplinari ma sono anche interessati ad approfondire e affinare la consapevolezza delle implicazioni etiche e politiche delle proprie scelte e farsi carico degli esiti che i processi di conoscenza sono in grado di innescare sia sul piano delle rappresentazioni del fenomeno che su quello delle decisioni pubbliche.
