Matters in Policing? van Dijk, Auke, Hoogewoning, Frank, Maurice Punch, 2015-08-19 Studies of policing tend to focus on effectiveness on what works rather than on the more important question of what matters of why policing should be done in particular ways or reformed or restructured This book explores that angle looking at the implications of recent restructurings in the United States the United Kingdom and the Netherlands with a special emphasis on the dilemmas faced by police leadership as they confront change *Oswaal ISC 10 Sample Question Papers Class 12 (Set of 5 Books) Physics, Chemistry, Biology, English Paper 1 & 2 For 2025 Board Exam (Based On The Latest CISCE/ICSE Specimen Paper)* Oswaal Editorial Board, 2024-09-09 Description of the product Fresh Relevant with the Latest ICSE Specimen Paper 2025 Score Boosting Insights with 450 Questions 250 Concepts approx Insider Tips Techniques with On Tips Notes Mind Maps Mnemonics Exam Ready Practice with 5 Solved 5 Self Assessment Papers with Hints Online Courses with Oswaal 360 Courses and sample Papers to enrich the learning journey further Strictly as per the Latest Syllabus Specimen Paper 2025 Issued by CISCE Includes Competency Focused questions based on Bloom s Taxonomy Create Evaluate Analyse Apply Understand and Remember Official Marking Scheme Decoded **Zero Tolerance Policing** Maurice Punch, 2007-11-28 AGREED WITH AUTHOR What is policing about and who defines it This report examines these key issues by exploring the notion of zero tolerance and its application in different settings Following its introduction in New York and the seemingly dramatic reduction in crime zero tolerance policing was taken up in a number of other countries including the UK and the Netherlands This report examines that process It argues that this policy was in fact nothing more than a return to old style crime control policing While it did foster the swift analysis of crime patterns and more assertive policing of public places it could lean towards repression and demonising of certain groups Examining the negative responses of leading police officers and the policy s debatable impact on crime the author concludes that zero tolerance in the UK and the Netherlands was more of a populist political and media creation than a coherent policy This report is far more than an authoritative analysis of zero tolerance It is a valuable source for entering the debate about the big picture in policing that many stakeholders now wish to see The approachable style of Zero tolerance policing makes it ideal for students academics police practitioners and the lay reader to enter that debate Maurice Punch is Visiting Professor at the Mannheim Centre for Criminology London School of Economics and Political Science and also teaches on criminological programmes at King s College London He has worked at universities in the UK US and the Netherlands and has published widely on corporate crime and police corruption

Teaching the American Civil Rights Movement Julie Buckner Armstrong,Susan Hult Edwards,Houston Bryan Roberson,Rhonda Y. Williams,2012-11-12 The past fifteen years have seen renewed interest in the civil rights movement Television documentaries films and books have brought the struggles into our homes and classrooms once again New evidence in older criminal cases demands that the judicial system reconsider the accuracy of investigations and legal decisions Racial profiling affirmative action voting districting and school voucher programs keep civil rights on the front burner in the political arena In light of this there are very few resources for teaching the civil rights at the university level This timely and invaluable book fills this gap This book offers perspectives on presenting the movement in different classroom contexts strategies to make the movement come alive for students and issues highlighting topics that students will find appealing Including sample syllabi and detailed descriptions from courses that prove effective this work will be useful for all instructors both college and upper level high school for courses in history education race sociology literature and political science **The Migration Question** Leila Simona Talani,Matilde Rosina,2025-07-01 This authoritative book proposes a fresh perspective on international migration offering decisive answers to the big questions and dismantling the main myths surrounding one of the most salient issues of today s global politics Who are these migrants Do they steal our jobs Can we help them in their home countries Do border controls improve security Are open borders desirable Leila Simona Talani and Matilde Rosina address these issues and more in their deeply researched study of migration into both Europe and the United States Assessing globalisation s impact on international migration the authors find that it is virtually impossible to stop contemporary flows from the Global South to North In this context policies designed to control limit or deter immigration simply transform some or all regular migrants into irregular ones exacerbating insecurity for citizens of the receiving state and criminalising the migrants Through empirical research including original surveys and interviews Talani

and Rosina demonstrate conclusively that the only solution to this short circuit world of securitisation and criminalisation is for the Global North to open its doors to the migrants already inevitably coming through particularly since the evidence shows that regularising migration is a positive sum game in economic social and security terms
