

The background of the cover is a high-magnification, false-color micrograph of a silicon microchip die. The die is rectangular and densely packed with intricate circuit patterns. Various regions are highlighted in different colors: large rectangular blocks of bright green, elongated strips of magenta and blue, and smaller patches of red and yellow. A network of fine, dark lines represents the interconnects between the functional blocks. The overall appearance is that of a complex, multi-layered electronic circuit.
