Clinical Neuropsychology Study Guide And Board Review American Academy Of Clinical Neuropsychology:

Clinical Neuropsychology Study Guide and Board Review Kirk Stucky, Michael Kirkwood, Jacobus Donders, Christine Liff, 2020-09-01 Clinical Neuropsychology Study Guide and Board Review Second Edition provides an easy to study volume with sample questions and recommended readings that are specifically designed to help individuals prepare for the ABCN written examination. In addition, this book can be used as a teaching tool for graduate students and trainees at various levels. The book is divided into three sections: Section I Foundations of Clinical Neuropsychology, Section II Fundamentals of Assessment, and Section III Disorders and Conditions. The format is geared toward exam preparation and is much less dense than a typical textbook. Information is provided in a concise, outlined manner with liberal use of bullets, boxes, illustrations, and tables that allow readers to easily review and integrate information into their already established knowledge base. To augment the study guide, a recommended readings list at the end of each chapter provides references to more comprehensive materials considered important or seminal in each topic area. Additionally, the book contains four 125-question mock exams designed to help readers study and prepare for the written exam. The answers to all questions are explained along with appropriate and supportive references. Features include detailed charts and summary tables that facilitate conceptual learning, concise coverage of pediatric, adult, and geriatric issues and conditions, emphasis on critical teaching points relevant to current neuropsychological practice, mock exam questions with answers and references at the end of every chapter relevant to the content, four separate 125-question full-length mock exams with answers and references.

Board Certification in Clinical Neuropsychology Kira E. Armstrong, PhD, ABPP, Dean W. Beebe, PhD, ABPP, Robin C. Hilsabeck, PhD, ABPP, Michael W. Kirkwood, PhD, ABPP, 2019-05-01 Pursuit of board certification through the American Board of Professional Psychology (ABPP) has become a standard expectation for clinical neuropsychologists. At the time this book was published, the American Board of Clinical Neuropsychology (ABCN) was the fastest growing specialty board of ABPP with over 1,000 active members. However, the board certification process is challenging and can be intimidating. The objectives of this book are to demystify the process and provide practical advice for achieving board certification through ABPP/ABCN. To start, benefits of board certification are summarized, and common myths are debunked. Next, individual chapters for each step in the process, as well as a chapter devoted to pursuit of the pediatric subspecialty, provide details about essential elements of the task, the process, the timeline, strategies for success, common pitfalls, and what happens behind the scenes at ABPP/ABCN. Each of these chapters also has tips for trainees and supervisors who want to get a jump on preparing for board certification. Finally, encouragement and guidance for individuals who encounter setbacks at any step along the way are offered.

Textbook of Clinical Neuropsychology Joel E. Morgan, Joseph H. Ricker, 2017-12-06 The first edition of the Textbook of Clinical Neuropsychology set a new standard in the field in its scope, breadth, and scholarship.
