

Dividend Valuation Model	Formula		Remarks
General	$P_0 = \frac{\text{Div}_1}{(1+r)^1} + \frac{\text{Div}_2}{(1+r)^2} + \dots + \frac{\text{Div}_n + P_n}{(1+r)^n}$		
Perpetuity	$P_0 = \frac{\text{Div}_1}{(r - g)}$		Dividends are not given out. Earnings grow by g every period indefinitely
Different growth rates	$P_0 = \frac{\text{Div}_1}{(1+r)^1} + \frac{\text{Div}_1 (1+g^*)^1}{(1+r)^2} + \dots + \frac{\text{Div}_1 (1+g^*)^3}{(1+r)^4} + \frac{\text{Div}_1}{(r - g')} \cdot \frac{1}{(1+r)^4}$		Earnings / dividends grow at g* for n years (ex. n = 3), and g' thereafter.
Growth rate (g)	g = plowback ratio * ROE	ROE = ratio of earnings to book equity Plowback ratio – amount of earnings not given out as dividends	
Payout ratio	Payout ratio = $\frac{\text{Div}}{\text{EPS}}$		
Real vs. Nominal	1 + real = $\frac{1 + \text{nominal}}{1 + \text{inflation}}$	*Streams of equal cash flows in different years normally suggests real cash flows	
Stock Price	$P_0 = \frac{\text{EPS}}{r} + \text{PVGO}$		(EPS / r) is the component showing EPS value at a no-growth policy (i.e. PV current earnings). This only suggests that stock price not only reflects current firm performance, but also comprise of investor expectations of a firm's future performance (through PV of Growth Opportunities)

Financial Management Formula Cheat Sheet

Mike Jess

Financial Management Formula Cheat Sheet:

Fundamentals of Financial Management Eugene Brigham, Joel F. Houston, 2003-04 Prepared by Eugene F Brigham and Joel F Houston The Study Guide lists the key learning objectives for each chapter outlines the key sections provides self test questions and provides a set of problems similar to those in the text and the Test Bank but with fully worked out solutions

Fundamentals of Financial Management Eugene F. Brigham, Joel F. Houston, Dana Aberwald Clark, 1996 This popular shorter version of Brigham's market leading Fundamentals text again offers students the core topics of financial management at the same detail and depth of coverage as the corresponding topics in the full size text but in a two color format at a lower price

The Fractional Formula: The Fractional Executive's Guide to Predictable Growth Sue Mysko, 2025-02-18 What if you never had to chase another client again Every fractional executive knows the cycle of fantastic client work followed by frantic business development Your expertise isn't the problem Your clients love your work But referrals aren't enough anymore and typical marketing advice misses the mark completely The Fractional Formula cuts through the noise with a clear proven system for predictable growth Drawing from 30 years in marketing and hands on fractional leadership this guide offers a practical blueprint that takes you beyond the referral ceiling Through case studies actionable frameworks and proven strategies you'll discover how to attract high paying clients consistently package your expertise into a system they can't resist and build a practice that grows predictably

The Financial Times Guide to High Impact Negotiation Kasia Jagodzinska, 2023-01-03 Strategy tactics and templates to prepare for high impact negotiations that result in successful long lasting deals The Financial Times Guide to High Impact Negotiation provides a comprehensive and strategic roadmap to the whole negotiation process from preparation to execution Follow the practical steps to complete negotiation successfully build relationships and finalise your deal

Beyond Tests and Quizzes Richard J. Mezeske, 2007-10-12 Beyond Tests and Quizzes Because the drive toward external assessment speaks almost exclusively in terms of standardized testing we need to be reminded of the internal purposes of assessment measuring learning for both student and teacher so that instruction can be adjusted and improved This book is written for college instructors who are striving to creatively change assessment practice to better reflect learner centered teaching It is intended to consider not only the multiple ways in which individuals learn content but also the multiple avenues to assessment the variety of learning styles demands Creative assessment is defined here as assessments that spin twist and reform what might be a standard kind of assessment in an ordinary classroom Instructors should use these examples of creative assessment as starting points and as the beginnings of an internal discussion on what matters most in the courses they teach What components of each course count the most for solving a range of problems in the discipline If facts are important and they usually are how can they be used to support a flexible approach to thinking solving considering options and gathering and interpreting evidence What are the facts not telling us The approaches suggested in this book focus on learning on what students can do as a result of learning and on how teachers

can observe what students do The assessment models presented here include concept mapping variable grading learning logs moving from memorization to analysis making labs more practical exams as learning experiences web based assessment thinking styles tracking learning over time and assessment in the real world Each translates to a range of academic settings and is easily adaptable for use by a variety of instructors in any discipline *Hospital Financial Management* ,1975
