2. The secret to making big money in the market is buying breakouts that go beyond a normal day's range of price movement. This is called volatility breakouts. You can make a bundle by following this advice.
3. The fourth phase is when people start asking you how to do it. In this phase, they are looking for anything that will provide them with the secrets to unlocking the universe of untold riches. They go to lots of seminars and learn about various methods.
4. The investor's search for the Holy Grail is a search for the magic secrets of the market that will make them rich. However, these secrets exist where you would least expect them: in the midst of a spiritual path between pairs of opposites, such as profits and losses.
