Resources in Education ,2000 **China's Urban Health Care Reform** Chack-kie Wong,Vai Io Lo,Kwong-Leung Tang,2006-01-01 One way to describe the importance of social policy is to say it s about what is and what might be This ethos is the driving force behind Chack Kie Wong Vai Io Lo and Kwong leung Tang s China s Urban Health Care Reform Based on a study of a mid level city in China these three scholars provide analysis and offer theory based recommendations on health care development Using a comparative policy framework supported by a legal expert s knowledge of regulatory specifications China s Urban Health Care Reform argues that a strategy with priority in economic growth as in the case of China does not bring forth cost efficiency and equity in health care for the whole nation Ultimately Wong Lo and Tang strive to offer direction for health care reform that will lead to better health care in China s cities As a result this is a work of great significance to anyone involved in public health social work public policy medicine or law **Organized Crime** Klaus von Lampe,2015-07-16 Organized Crime Analyzing Illegal Activities Criminal Structures and Extra legal Governance provides a systematic overview of the processes and structures commonly labeled organized crime drawing on the pertinent empirical and theoretical literature primarily from North America Europe and Australia The main emphasis is placed on a comprehensive classificatory scheme that highlights underlying patterns and dynamics rather than particular historical manifestations of organized crime Esteemed author Klaus von Lampe strategically breaks the book down into three key dimensions 1 illegal activities 2 patterns of interpersonal relations that are directly or indirectly supporting these illegal activities and 3 overarching illegal power structures that regulate and control these illegal activities and also extend their influence into the legal spheres of society Within this framework numerous case studies and topical issues from a variety of countries illustrate meaningful application of the conceptual and theoretical discussion US-China Rivalry Brian C. H. Fong,2024-11-30 US China Rivalry offers a holistic analysis of the unfolding of US China competition in the Indo Pacific using a novel theory called neo offensive realism It synthesises quantitative and qualitative data to examine the intensification of US China competition across the Indo Pacific in recent years with a focus on why the competition is intensifying under the interplay of system level and unit level forces where the competition is unfolding across states and quasi states in the region how the competition is conducted through economic and military influence mechanisms and whither the competition is developing in the future Green Management Swati Gupta,Sanjay Taneja,Ercan Özen,Kiran Sood,Simon Grima,2024-11-25 Green Management brings together works by specialists from different disciplines and continents to reflect on the nexus between Green Management and its impact on businesses **China Engages Global Governance** Gerald Chan,Pak K. Lee,Lai-Ha Chan,2011-10-20 This book focuses on China s increasing involvement in global governance as a result of the phenomenal rise of its economy and global power It examines whether and in what ways China is capable of participating in multilateral interactions if it is willing and able to provide global public goods to address a wide array of global problems and what impact this would have on both global governance and order The book provides a comprehensive assessment of China s

Bulletin of the Public Affairs Information Service Public Affairs Information Service,1927 *China - America Relations* Ni Feng Huang Ping,2012-03-01 Offering insights and analysis on China's approach to America and its relationship with the American government this insightful book reveals China's current thinking and strategies towards China US relations and trade policies It also provides comprehensive analyses into the competitive strengths of the USA and the status of American power in the global community Public Affairs Information Service Bulletin ,1927 *Collective Management of Music Copyright* Qingqing Xu,2023-04-17 Two of the objectives of the Chinese Copyright Law are to protect the copyright of authors to their literary and artistic works and encourage the creation and dissemination of works In practice however in spite of the existence of the Music Copyright Society of China MCSC that was established to assist with exercising copyright music creators in China remain in need of help to protect and manage their fragmented copyright The MCSC was the first collective management organisation CMO in mainland China and is the only CMO in the field of musical works While there is a large music industry and copyright business in China the MCSC only had 11 356 members at the end of 2021 The third amendment of the Chinese Copyright Law was initiated in 2011 and came into effect in June 2021 after a long debate for almost ten years The discussion of the third amendment has highlighted the controversial topic of collective management of copyright This book explores the adequacy of the MCSC as an intermediary representing rights for music creators The main argument developed in this study is that the work of the MCSC for individual composers and lyricists is hampered by shortcomings in the regulatory regime as well as by a lack of members rights to participate in the management of their own rights and by the ineffective international cooperation between the MCSC and other musical CMOs overseas The analysis is undertaken through a case study approach comparing the collective management systems of music copyright in China the United States and Australia and addressing the question of how musical CMOs operate in these countries Specifically three perspectives are examined the regulatory systems designed to limit the misuse of those CMOs monopoly members rights in the organisations and international cooperation between these CMOs Overall the main findings of this book suggest that the MCSC in China could work more effectively to protect music creators interests In contrast although the operational frameworks of the American Society of Composers Authors and Publishers ASCAP and the Broadcasting Broadcast Music Inc BMI in the United States and the Australasian Performing Right Association APRA in Australia are not perfect models the systems in these two countries may at least provide reference points for potential improvement of the regime of the MCSC The research recommends three courses of action strengthening the regulatory design overseeing the MCSC's monopoly clarifying the relationship between the MCSC and its members while providing the members with the right to manage their

own copyright and improving the international cooperation between the MCSC and CMOs in other countries
