Consumers Against Capitalism 1999 02 01:

The International Consumer Protection Act of 2003 United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Commerce, Trade, and Consumer Protection, 2003 *108-1 Hearing: The International Consumer Protection Act of 2003, Serial No. 108-45, September 17, 2003, **, 2003 *The International Co-operative Alliance and the consumer co-operative movement in northern Europe, c. 1860-1939* Mary Hilson, 2018-04-10 The book examines the history of co operation in the broad context of the history of consumerism and consumption of internationalism and the development of international organisations and debates about international trade during the inter war period The fundamental question explored in the book concerns the meaning of co operation Was it a social movement or an economic enterprise Did it aspire to challenge capitalism or to reform it Did it contain at its heart a political vision for the transformation of society or was it simply a practical guide for organising a business Hilson argues that it was both but that an examination of the debates over the different meanings of co operation can also illuminate broader questions about the emergence of consumer interests in the first half of the twentieth century especially in a transnational context **The Consumer Co-operative Sector** John F. Wilson, Anthony Webster, Espen Ekberg, Samuli Skurnik, 2023-12-01 Globally consumer co operation has experienced a difficult period since the 1970s Large scale failures in France Germany and Austria were accompanied by loss of market share in the UK including the failure of the Scottish Co operative Wholesale Society and its takeover by its English counterpart Even in the Nordic countries where consumer co operation has always been more robust new challenges from the non co operative sector had to be confronted How did co operative organizations in different countries cope with these challenges What were the processes of strategic renewal that they undertook How successful were they These are the key questions that the collection will address culminating in an analysis by the editors of the effectiveness of strategic renewal in the co operative sector This book is a study of strategic renewal in the consumer co operative sector using eleven international case studies to demonstrate how the concept has been applied over the last fifty years

Consumer Politics in Postwar Japan Patricia L. Maclachlan, 2001-12-26 Providing comparisons to the United States and Britain this book examines Japan s postwar consumer protection movement Organized largely by and for housewives and spurred by major cases of price gouging and product contamination the movement led to the passage of basic consumer protection legislation in 1968 Although much of the story concerns the famous iron triangle of big business national bureaucrats and conservative party politics Maclachlan takes a broader perspective She points to the importance of activity at the local level the role of minority parties the limited utility of the courts and the place of lawyers and academics in providing access to power These mild social strategies have resulted in a significant amount of consumer protection The World of Consumption Ben Fine, 2002 Consumption has become one of the leading topics across the social sciences and vocational disciplines such as marketing and business studies In this comprehensively updated and revised new edition

traditional approaches as well as the most recent literature are fully addressed and incorporated with wide reference to theoretical and empirical work. Fine's refreshing and authoritative text includes a critical examination of such themes as economics imperialism and globalization, the world of commodities, systems of provision and culture, the consumer society, public consumption. This book presents an updated analysis of the cluttered landscape of studies of consumption that will make it required reading for students from a wide range of backgrounds including political economy, history and social science courses generally. *Federal Register*, 2003. *Fair Trade and the Citizen-Consumer* K. Wheeler, 2012-10-23. As sales of fair trade goods explode across the globe, *Fair Trade and the Citizen-Consumer* provides a timely analysis of the organizations, institutions and grassroots networks behind this growing movement. Drawing on examples from the UK, Sweden and USA, this book moves away from models of individualized consumer choice and instead explores the collective cultures and practices that motivate and sustain fair trade consumer behaviour. Although the fair trade citizen consumer has been called to action and publicly represented as an individual voting in the marketplace, this book reveals how market interventions are editing the choices available to consumers at the same time as Fairtrade Town consumer networks are flourishing. Offering new and critical insights into the fair trade success story, this book also contributes to debates about sustainable consumption behaviour and the growth of new forms of political participation and citizenship. *Consumer Culture* Roberta Sassatelli, 2007-05-17. Roberta Sassatelli has written a thorough and wide-ranging synthetic account of social scientific research on consumption which will set the standard for the second generation of textbooks on cultures of consumption. *Consumer Culture* is an appealing and lucid introduction to the major themes, historical and contemporary, theoretical and empirical, surrounding the growth, nature and consequences of consumer culture. It will be of professional interest as well as serving a student audience. Alan Warde, University of Manchester. Showing the cultural and institutional processes that have brought the notion of the consumer to life, this book guides the reader on a comprehensive journey through the history of how we have come to understand ourselves as consumers in a consumer society and reveals the profound ambiguities and ambivalences inherent within. While rooted in sociology, Sassatelli draws on the traditions of history, anthropology, geography and economics to give a history of the rise of consumer culture around the world. A richly illustrated analysis of theory from neo-classical economics to critical theory to theories of practice and ritual, de-commodification and a compelling discussion of the politics underlying our consumption practices. An exemplary introduction to the history and theory of consumer culture, this book provides nuanced answers to some of the most central questions of our time.
